

Texas Window Cleaning Business Launches New Website

January 19, 2016

January 19, 2016 - PRESSADVANTAGE -

Clear and Clean Windows, a business in Flower Mound, TX, is proud to announce the launch for their new website. The window cleaning business has ensured that the site clearly lists all the business' residential and commercial services. They are happy to see that it is already becoming popular and attracting many visitors.

Mark Wadding from Clear and Clean Windows says: "Our design team really went all out on our website. We came to them with a simple brief, and they turned it into something absolutely amazing. We can't thank them enough for what they have done, and for their search engine optimization work as well, because we are already seeing that more visitors are coming to our site and asking us for our services."

Residential window washing is one of the main services of the business. They have many years of experience in this, and they have perfected their techniques of cleaning windows to a sparkly standing, while at the same time focusing on the environment by using biodegradable solutions.

Before the launch of the new website, the business already had a Facebook page available, which has a substantial number of 'likes'. This page on Facebook is being used by people to talk about their experiences

with Clear and Clean Windows, and these reviews have been overwhelmingly positive. "Clear and Clean made our windows shine and they were some of the nicest guys we've have come do work at our house," says Nicki T. "All of our neighbors were asking who cleaned our windows. Highly recommend."

Besides residential window washing, the company is also involved in commercial cleaning, which is also a very popular service. They apply the same ethos to their commercial jobs, meaning they focus on leaving windows clean and glittery, while using biodegradable solutions so as not to damage the environment. Additionally, they use surgical lint free towels, which enables them to remove even the deepest dirt. And, in order to make sure the light can truly shine through the windows, they also clean the sills and tracks of every window they are asked to wash.
