

Jackpot Candles Now Offering Jewelry Candles In Winter Scents

November 18, 2015

November 18, 2015 - PRESSADVANTAGE -

Jackpot Candles, a New York based company, has begun their winter campaign with a fresh selection of festive scents just in time for the holidays. The latest scents to hit the market include Santa's Cookies, Christmas, and Jack Frost. The company is known, not only for the luxurious scents of their candles, but by what is found inside of them as they melt. Each product holds a piece of jewelry inside, making them popular among women in particular. The company has stated that they want their invited shoppers to, "Follow us on Instagram to see our customer's favorite jewelry pieces."

Jackpot Candles Jewelry Candles each hold a different treasure inside, including a ring, necklace or earrings. Ring sizes can be specified during order, making it easy to purchase a gift for a spouse, friend, or family member with an item inside which will suit them perfectly. The new winter scents will continue this company tradition, providing each candle owner with a sparkling treat when the wax has finished melting. Each of the new scents is created using 100% premium natural soy and burns for 80 to 100 hours.

Each new scent consists of a different unique blend of ingredients, and Jackpot Candles has explained that this is to produce a smell which will remind candle owners of specific memories or events. For example,

Santa's Cookies has been designed to create holiday ambiance through the delivery of warm, vanilla cookie smells filling the room, much in the same way a home would smell during holiday baking. Jack Frost, on the other hand brings out thoughts of snowy nights and candy canes by combining peppermint and vanilla into one product.

Individuals who enjoy the Jackpot Candles, or those who are interested in learning more about them are invited by the company to, "Like us on Facebook for our weekly giveaways." This gives consumers the opportunity to not only check out upcoming deals, discounts, and contests, but also to communicate with other customers and interact with the company themselves. It also offers a little insight into the latest scents and what kinds of prizes to expect inside.
