

Mighty Dog Roofing Is Redefining What Southwest Idaho Homeowners Should Expect From A Roofing Company

August 02, 2022

August 02, 2022 - PRESSADVANTAGE -

Mighty Dog Roofing is leveraging technology to better serve its clients in Southwest Idaho including Boise, Meridian, Nampa, Eagle, Kuna, Star, Garden City, West Valley, West Boise, and West Bench.

The locally owned and operated company has provided Southwest Idaho residential and commercial customers with roofing, gutters, siding, and windows, installation, maintenance, and repair services for over 20 years. All of Mighty Dog Roofing's work is backed by a craftsmanship warranty and a manufacturer's warranty.

One of the biggest advantages of hiring Mighty Dog Roofing is getting to interact with its proprietary visualization software - Mighty Dog Visualizer. The software has been cleverly designed with homeowners in mind to give them a clear vision of how their humble abode will look once the trained and experienced crew at Mighty Dog is done working on their home.

The Mighty Dog Visualizer app runs on a smartphone and is built using the magic of sophisticated cutting-edge image processing algorithms. It allows homeowners to dynamically design their home's exterior using easy-to-use before and after tools in real-time. The app allows homeowners to cycle through various product and color variations until they settle on a combination that is exactly to their taste.

Mighty Dog Roofing's impressive application of high-tech wizardry does not end with the Mighty Dog Visualizer. Wielding the latest technology, Mighty Dog is also betting big on dramatically altering the way home improvement companies operate and loyally serve their customers for years.

Case in point, all of the information from the Mighty Dog Visualizer, including valuable measurements and the

condition of the client's property, is uploaded to the Mighty Dog Vault, a secure and customized vault of information. The Mighty Dog Vault uses strong enterprise-level security to store its clients' data such that it is almost impossible to penetrate by malicious actors but still easily accessible to the client and the company's technicians.

The Mighty Dog Vault can store a diverse range of information regarding a client's property including site photos and videos, annually updated drone information, warranty information, repair records, manufacturer information, insurance information, reports for the property's realtor or insurance agent, the baseline of the health of the exterior with Mighty Dog Roofing's own free 25-point inspection, and more.

The vault can also be used for scheduling annual reminders for a roof inspection, tracking all repairs, and replacements with dates, tracking products, and services used, maintaining a database of materials that are installed, tracking, and maintaining all the warranties used, working with the realtor to maximize the home's value, expediting emergency repairs for the company's Watch Dog Maintenance members, maintaining insurance information for EZ claim handling, and more.

A spokesperson for Mighty Dog Roofing of Southwest Idaho talks about the many advantages that the Mighty Dog Vault offers by saying, "The Mighty Dog Vault is your answer to never misplacing any valuable property information. You just won't appreciate how simple the Mighty Dog Vault makes filing insurance claims or preparing your house to be sold until you've experienced the pain of scrounging through your dresser drawers for important paperwork that you swear you had stored there when you moved into the property which was 25 years ago. The rigmarole of dealing with an insurance adjuster or realtor who asks for documentation and photographic proof regarding every single detail about your property is beyond painful. You will be more than grateful for access to the Mighty Dog Vault when it comes time to file a claim or to list your property. The Mighty Dog Vault makes dealing with red tape a cinch as all the details about the work done on your property are always at your fingertips, secure, away from prying eyes. Moreover, the vault will also make sure to remind you periodically of when it is time for a scheduled roof inspection to ensure your property remains standing strong for a long time."

Readers can contact the Southwest Idaho roofing company at (208) 508-1447 for a free estimate.
