

Vancouver Search Engine Optimization Company Wins Contract For Las Vegas Realty Company

November 16, 2015

November 16, 2015 - PRESSADVANTAGE -

Hurricane Web Design Ltd., which is based in Port Coquitlam, British Columbia, has announced that they have won the bid for a contract that will provide search engine optimization (SEO) and internet marketing services. The contract is between Hurricane Web Design and Award Realty for the latter's website with the purpose of offering high rise condos in Las Vegas, Nevada.

Award Realty's Vegas Condo Scene website markets the best high rise condos that are currently for sale in Las Vegas and includes over a dozen buildings such as the MGM Signature, the Trump Tower, Palms Place, The Martin, The Veer and various others. The condo website currently has a number of features including the ability to view all of listings available, view photo galleries, floor plan amenities, on-site development amenities, and other attractions nearby for each high rise building.

Cary Blackburn, the owner and founder of Hurricane Web Design, states, "We're thrilled to be working with Vegas Condo Scene and we know that our professionals can help to take this website where the company wants it to go."

Hurricane Web Design Ltd. will be focusing on getting more traffic to the Vegas Condos Scene website for people searching for available condos in specific buildings within Las Vegas through SEO. Other forms of online marketing will be used including the marketing of their videos and social media websites.

The company is a full-service web design studio offering design, site maintenance, social media strategy and integration, and SEO in British Columbia. Blackburn states that they can provide services to any company, no matter the location, "After all, we're assisting a company in Las Vegas. We can help businesses to gain more traffic and generally increase their online presence." He states that the company does not only work with real estate sites, and that they can handle any number of industries.

More about Hurricane Web Design can be seen on their official website. Those interested can also visit the company's Facebook business page to learn more about the realm of services that they offer, and new clients that they have recently added to their workflow.
