

Cure for "Business Killer"

Matt Tarrant: How To Increase Profits

September 23, 2022

Charnwood, England - September 23, 2022 - PRESSADVANTAGE -

Matt G Tarrant Marketing + Coaching, based in the UK, is inviting the average American business owner to make use of his free 22-minute consultation and learn how to double profits in one day without any extra work. Following a successful implementation of his advice, select business owners will then be invited to join Tarrant's 12-Step "Profit Accelerator Program," which will share comprehensive tips and strategies on how they can increase profits even further. See more here: <https://youtu.be/8d5xKw40BkY>.

Tarrant has extended this invitation on multiple platforms, including his Youtube channel. In a video published here, he explains that he has developed a two-step cure that will give business owners the tools they need to address lackluster profits. Given the enormous challenges they have faced over the past few years as a result of the pandemic "and the uncertainty of the near future" business owners need every advantage they can get to make sure their organization will endure the test of time (and be worth their tireless investments).

He says in his video, "In 22 minutes, I'll show you how the average American business can double its profits. In a day. Without any extra work. How would that feel? We'll look at what you can expect in your business. Then, I encourage you to just go do it because the proof is in seeing the money in the bank. This is

a free service, because a handful of business owners who make at least \$20,000 from this free consultation can invest a fraction of it into my 12-Step Profit Accelerator Program.?

The offer is simple, and requires virtually no risk on a business owner's behalf. All Tarrant needs is a little time, less than half an hour, to go over the business' operations and make suggestions that may help its profits soar. A business owner who elects to sit down with Tarrant is under no obligation to act on his advice, pay him for his time or otherwise commit to any action they are not completely on board with. The consultation is completely free, and all are invited to get themselves on Tarrant's schedule by visiting his official website.

According to Tarrant, his motivation for making this offer is two-fold. For one, he wishes to do his part to help more businesses succeed in trying times, especially those that already have a solid foundation and simply need a few key pieces of expert advice to make use of previously unseen opportunities. Second, he hopes that businesses that find success as a result of this short consultation will trust him enough to invest a meager portion of their new profits in his 12-Step Profit Accelerator Program. Again, he is adamant that no business will ever be under any obligation to join the program once their profits go up or they otherwise achieve some predetermined milestone. They will simply have the opportunity, should they wish, to use a small percentage of the profits he helped create to join his program ? an investment he asserts will help the business do even better in the future.

The Profit Accelerator Program offers participating businesses much more than a simple 22-minute consultation could possibly contain. To begin with, each step of the program results in the business making more money. Further, Tarrant will personally guide them through each step, sharing tried-and-tested strategies that he has personally implemented in the past. To assist their progress, he has also documented and obtained a variety of resources that businesses can use as much as required. Last but not least, Tarrant will engage in certain actions on the business' behalf, ensuring they need not get involved if they do not wish to be.

Businesses should note that they may leave the program at any point once they begin. Tarrant is so confident of their eventual success that he is also willing to refund his monthly fee if the business does not make at least twice the amount of the fee in annualized profit. With nothing to lose and everything to gain, American businesses stand to learn a great deal through Tarrant's insights, coaching and services.

Any business can sign up for a consultation via Matt Tarrant's official website. They may also learn more here: <https://mattgtarrant.com/how-to-increase-profits/>.
