Get Pixabiz offers a completely functional pixabiz.co.uk website that is all done for the client within just 7 days for as low as £100. Everything has been made easy for the business owners as the technical and creative elements are done for them. Various kinds of Pixabiz websites are offered, such as: mini websites, lead gen websites, bookings website, and e-commerce websites. The purpose of mini websites is to provide a business with an "online presence" and this is appropriate for home-based businesses (many are emerging as people try to survive in a slow economy), startups, and small businesses. The lead gen websites are fully functional websites with the purpose of generating leads and sales for the business and therefore are provided with "enquiry forms." They can also build booking sites for clients, which are fully functional websites with the purpose of accepting bookings and payments. And lastly, they can provide a fully functional e-commerce website for a professional display products, managing sales, and accepting payments.

"Get Pixabiz" is encouraging small businesses to join the Pixabiz group of websites. Ismail Ougradar from Pixabiz says, "We're trying to build a large community of websites where our strength comes from the size of the community! When many small businesses are part of a larger community can gain greater footing on the internet. The larger sites are dominating the search engines and have all the money in the world to get to the top and dominate. We're trying to combat that and allow small businesses to run along side them."

Those who are interested in having a professional website that is supported by the Get Pixabiz digital marketing expertise can check out the "Get Pixabiz" website or contact them on the phone or through email.
