

Chiropractor in Beaverton Receives Another Highly Positive Review

October 20, 2022

Beaverton, Oregon - October 20, 2022 - PRESSADVANTAGE -

True Potential Chiropractic, a chiropractic and massage therapy clinic in Beaverton, OR, is proud to announce that they have received another five star review on Google. In addition, they have currently over 300 reviews on Google and they have an overall rating of 5.0 out of 5 stars. Dr. Bryen Bell, the founder of the clinic and an award-winning chiropractic physician, has expressed his excitement about the fact that they continue to receive five star reviews from clients. When in need of chiropractic or massage therapy Beaverton residents can go to True Potential Chiropractic clinic that serves the Pacific Northwest and the Greater Portland metropolitan areas.

In the latest customer review, Lorena B. said, "I had a shoulder injury earlier this year from weightlifting that was really painful and not only prevented me from lifting anything heavy, but also activities of daily living and mom life. Going to TPC for regular adjustments and massage, coupled with physical therapy was the combination for success! After a few months, I am back to being able to hold my toddler and put on/take off a sports bra without pain (if you know, you know) and lifting more weight in the gym than ever before! Thanks Dr. Bell, Dr. Mennell, Andrew Waters, LMT and the rest of the amazing team over at TPC for taking care of me always!?"

Dr. Bryen Bell says, "It still excites me to receive such great comments from people that we have been given the pleasure to serve. Thank you Lorena for taking the time to leave those comments. We welcome all kinds of comments from our clients, positive or negative. That is feedback, which allows us to know where we are at in our goal of providing the best possible service. We are certainly glad that Lorena is back to being a rockstar mom and athlete and all of our patients can rest assured that we will always do our best to help relieve their pain and to get them moving again."

There are a number of factors that differentiate this chiropractor Beaverton clinic from providers of similar services in the area. First of all, they provide pain relief and corrective care with the use of pre- and post x-ray

analyses to monitor the patient's progress and correct the issue. Second, they are capable of providing help with past and new injuries that resulted from sports-related trauma and car accidents. Third, they offer gentle and safe prenatal and postpartum family care, and later on pediatric care for babies and children. Fourth, they provide gentle and effective in-office corrective exercises. Fifth, their team of stretch professionals offer assisted stretching. Sixth, their team of licensed massage therapists provide professional bodywork therapy. And lastly, their chiropractic physicians provide gentle and safe extremity, spinal and TMJ care.

Founded in 2013, True Potential Chiropractic is committed to offer lifestyle care, especially for family members. This chiropractic clinic has now evolved into one of the leading providers of family corrective care in Beaverton and surrounding areas in the Pacific Northwest. Dr. Bryen Bell, who established the clinic, is determined to offer non-drug solutions as the primary choice in health care. Dr. Bell launched a fully computerized and modern corrective care family wellness center in Beaverton, Oregon, shortly after moving to the Pacific Northwest in 2013. This is a sports rehab and family chiropractic practice with the goal of helping people attain better wellness and health through maintenance and prevention, instead of providing remedy after a health issue has cropped up, such as pain, disease, or disability. Dr. Bell's wellness philosophy is based on the six laws of the human body, namely: diet, exercise, alignment, rest, stress management, and mindset.

When in need of a chiropractic massage Beaverton residents can visit the True Potential Chiropractic website or contact them through the telephone or via email. They are open from 9:00 am to 1:00 pm and then from 2:00 pm to 7:30 pm on Tuesdays, Thursdays and Fridays; and from 9:00 am to 1:00 pm on Saturdays.
