November 20, 2015 - PRESSADVANTAGE -

Good Move, a business in Leeds, United Kingdom, have released a new service on their website. People can now enter their postcode on the company's website to receive an immediate and free cash offer for their property. This offer is no obligation and, if accepted, is subject to survey. The business aims to help more people sell their home fast through this service.

"Sometimes, people just need to sell their property in a hurry," says a representative from the sales department at Good Move. "This can be for a variety of different reasons and we don't judge on those. We simply give people a fair offer for their property and ensure they can proceed with the sale as quickly as possible. Our online free offer is the first step in the process."

The company prides itself on its speedy results. Most house buying companies take between eight and 24 weeks to complete a sale. They also include expensive fees for valuations, solicitors and various other elements. By contrast, Good Move completes their sales in an average time of just two weeks. Most importantly, they do not charge any fees either.

Those who are looking at selling their property can expect to receive an offer of up to 85% of their home value. They are also provided a free consultation and property valuation. Those who want to sell home online will also be happy to hear that the condition of their property is irrelevant, and that the company will purchase any type of property.

The services offered by Good Move have been greatly appreciated by those who need to sell their home fast. "The staff at good move were very easy to get hold of from start to finish and kept my mind at ease during my sale," says Mr M Kline. "If it weren't for them I would have lost my house and ended up with nothing. They did what they said and bought my house fast without any fuss."

"Mr Kline's example is one of many," says the Good Move representative. "If you want to sell your house fast UK, we are the people to go to."
