

GETTING HEALTHIER EVERY DAY

## **SuperBio Announces Launch of SuperBio Probiotic Supplement**

*November 24, 2015*

November 24, 2015 - PRESSADVANTAGE -

SuperBio Inc. announced the U.S. release of its new its new digestive health supplement product SuperBio Probiotic. SuperBio is now available at the Amazon marketplace and at their website [SuperBioProbiotic.com](http://SuperBioProbiotic.com).

"The research teams at SuperBio have invested nearly two years developing and perfecting our premier probiotic supplement product which may increase healthy bacteria growth in the gut by 600%," said SuperBio CEO Mahesh Mathrubutham, Ph.D. "We are thrilled that consumers everywhere now can get healthier everyday by simply adding SuperBio Probiotic once per day to their diet."

SuperBio Probiotic supplement comes in an easy to swallow capsule which is recommended to be taken once per day with a full glass of water. Customers can choose to take their SuperBio any time of day, although most choose to start their day with SuperBio.

SuperBio is manufactured in the United States in a pharmaceutical grade laboratory under strict FDA guidelines. Every fresh batch of SuperBio Probiotic is made with high quality, tested ingredients to ensure the probiotics arrive alive and well for every customer. The SuperBio Probiotic supplement blend is manufactured

in such a way that preserves the shelf life and potency of the probiotic flora for up to one year without the need for refrigeration or special storage conditions.

As an added level of consumer safety, all bottles of SuperBio Probiotic come with a tamper resistant seal secured onto the bottle and underneath the cap, and the cap is secured to the bottle with a tamper resistant plastic wrapping.
