

AZ Tile Installation And Remodeling Company Now Offers Custom Ceramic Tiles

November 29, 2015

November 29, 2015 - PRESSADVANTAGE -

AZTile.org, a home remodeling business in San Tan Valley, AZ, is proud to announce that they have added custom ceramic tiles to their selection of products. The company remodels kitchens, bathrooms and whole homes and works on projects of all sizes, while focusing on new residential and commercial projects in particular. Their new ceramic tiles are already proving to be very popular. Further details are available through <http://aztile.org>.

"We have worked together with a number of new designers to create the most beautiful custom ceramic tiles," says Dustin from AZTile.org. "These tiles truly complement the granite counter tops we offer in particular, although they can be used in various other applications as well."

The company has been working across the metropolitan Phoenix area. Each project they work on is treated as unique and the commitment for AZ Tile is to turn their clients' dreams and ideas into reality. They achieve this by cooperating with an expert team of project managers, remodelers and installers.

In terms of tile installation, some of the projects the company has worked on include bathrooms, kitchens,

fireplace, floors and even landscape tiles. They can also remodel a complete kitchen and bathroom. Because they now offer custom tiles, they can incorporate a wide range of materials, including granite, porcelain, various stones, mosaic, glass, epoxy and more. Additionally, they offer tile waterproofing and crack isolation materials.

For the Arizona tile installation and remodeling business, the goal is to create true works of art. "We work independently or with an interior designer," adds Dustin. "We enjoy the opportunity of creating an installation that people will love for years to come. We achieve this by incorporating a wide range of different materials that are not just beautiful, but incredibly functional as well."

The business currently offers their services throughout Arizona. These include Chandler, Gilbert, Mesa, Tempe, Higley, Phoenix, Scottsdale, Queen Creek, Apache Junction, Paradise Valley, Laveen, Fountain Hills, Glendale, Rio Verde, Peoria, and Florence. They encourage customers to contact them as soon as possible to discuss their requirements and to receive a free, no obligation quotation for their remodeling job.
