

Air Conditioning Contractor in Perth Earns More Five Star Reviews

January 23, 2023

January 23, 2023 - PRESSADVANTAGE -

WestOz Trades Air Conditioning Services, an air conditioning contractor in Perth, WA, is proud to announce that they have recently received more highly positive reviews from satisfied customers. They currently have an overall rating of 4.9 out of 5 stars on Google. The company provides air conditioning and refrigeration services in Perth and neighbouring areas and points out there are a number of factors that differentiate them from other providers of similar services in Perth. These include: excellent quality of work backed by a guarantee; client communication being a priority; fast and on time service; fully insured and licensed service; and no hidden costs.

In a recent review, Enzo G. gave them a five star rating and said, "From the moment I first met Louis onsite for an air conditioning repair at one of my rentals I started using him to repair more of our rental property air cons. Now we don't use anyone else. Always prompt and friendly and willing to go out of their way to assist. Well done West Oz. You're the best."

In another recent review, Roy S. also gave them five stars and said, "We used their services within our business for our clients and have always found them effective and very efficient, easy to deal with, prompt with their work/quotes and well priced. The staff is always accommodating, friendly and happy to assist with any issues that we may have. Thanks."

For residential properties, they provide different kinds of services, including: air conditioning installation; air conditioning service and maintenance; air conditioning repair; and split system air con hydro cleaning and mold removal. For commercial properties they can provide: services for air con breakdown and repairs; preventative asset service and maintenance; air con balancing; and air conditioning installation.

This Perth air conditioning repair services firm also offers home automation services, which involves the installation of a climate control system that provides people with the ability to control the temperature in the

home with their mobile device, such as a smartphone. They have worked with a number of home automation brands, including Airtouch, Advantage air (Myplace), and Myzone. Adding up to 12 touch screen consoles or sensors in a room can allow a homeowner to regulate the temperature in every room they want to all the time. They can also direct the airflow to certain rooms to optimise efficiency and savings.

The home automation system can be used for any of the well known ducted air conditioning brands. The Myzone 3, Air touch, and Advantage air systems can provide for a zoned system that offers a way to maximise the efficiency and savings for the heating or cooling of rooms that are not occupied.

WestOz Trades can also be relied on by the commercial property management industry, with the systems and processes ensuring that each work order or job will be hassle-free from beginning to end. From the moment they receive a work order, property managers can rest assured that the required works will be performed quickly and properly.

They can also be depended on to work with boutique builders in Perth in the provision of customised air conditioning system based on the specific client's needs. They have been providing a huge number of Reverse cycle ducted systems, evaporative units, and split systems to various new building developments.

Established in 2016 by Louis Carter, WestOz Trades Air Conditioning Services began as a one-man show with Louis and his trusted dog quickly gaining the trust of clients in the residential and property management industry due to his high integrity and honest work. All of these initial clients are still with WestOz Trades. But this air conditioning contractor has now developed into a full-service air conditioning service, installation, and maintenance provider for both small and large scale businesses throughout Australia. The company now has a fully equipped fleet of vehicles with experience, knowledgeable, and reliable technicians who always abide by the company's core values.

Those who are looking for air con servicing in Perth can visit the WestOz Trades Air Conditioning Services website or contact them through the telephone or by email. They are open from 7:30 am to 4:00 pm from Monday to Friday.
