Artisan is both a vape and CBD shop. The vape side of their business offers a wide selection of premium e-juices and hardware that meet the needs of every vape user. They offer everything from beginner products to advanced mods and tanks. Additionally, their staff is always on hand to answer any questions their customers may have about vaping.

The CBD store also has a large collection of Delta 8 products. At Artisan Vapor & CBD East Plano, they are passionate about helping people find and make use of alternative smoking methods. This includes helping them find the best ways to use Delta 8 products. Artisan's staff can help customers find the right product for their unique, specific needs, regardless of whether their intention is to diverge from their usual products or if they simply wish to learn more about their options.

Artisan Vapor has grown into one of the largest vape retailers in the world since it was first founded in Texas in 2013. Their wide selection of vape and CBD products, combined with the friendly staff at all of their locations, make shopping at Artisan a pleasant experience for every one of their customers. Many of their customers have left excellent reviews online.

One customer says about their experience, "This place was amazing! I went to a few different shops before and pretty much get very apathetic people who mostly just want to get my money and get me out of their shop without really helping me. But coming here was my best experience yet! The two women here were very knowledgeable and open and honest about things. They helped my friend and I get whole new battery systems, tanks and let us try several different juices to make sure we picked the right ones. The tank is so cool, and they really helped us out a lot. Definitely coming back even though it's way out of the way for me (I live in Irving)."

Another reviewer says, "Called ahead, because after searching for a couple of hours for a very specific vape at other shops, I heard of this place ? but it was three minutes before closing, and I was two minutes away. I know a lot of shops: Saturday night, a few minutes from closing, they're going to shut that door and lock it at 54 after and pretend they don't hear people knocking. But the attendant on the phone said, "Okay, sure!?" Wave of relief! I was in and out, but there's no way they knew for sure that I wouldn't spend an hour asking questions about a water pipe I've never heard of only to leave empty handed and say I'll have to think about it. I was treated well regardless of the burden I place on them. Thank you for your help, and sorry for being a last-minute walk in!?"
