New System Helps Increase Sales Of Term Life Insurance From Home

November 27, 2015

November 27, 2015 - PRESSADVANTAGE -

Quantum Marketing System, a business based in Eden Prairie, MN, has launched a new system designed to help people sell term life insurance from the comfort of their own home. The Quantum Accelerator Remote Term Selling System is already proving to be incredibly popular, with the first 100 membership spots being sold out in just under 30 days. Full details are available from <http://acceleratorwebinar.com/>.

"When we initially launched the Quantum Accelerator Remote Term Selling System, we hadn't anticipated how popular it would be," says Jeffrey A. Thompson from Quantum Marketing System. "We are so happy to see how many people are taking up on it and building their own home business."

The system uses smartphone and iPad app technology, which is then combined with a positive leveraged marketing strategy. Through the Accelerator online tutorial, people can learn how to effectively grow their business exponentially focusing solely on the sale of term life insurance. The program was launched on October 28, 2015 and continues to grow in popularity.

"I really want to encourage people to sign up for my webinar," adds Jeffrey A. Thompson. "Places are limited

and selling out quickly once again. During the webinar, I will show people how to explode their sales using online leads. This means no more chasing prospects and no upfront marketing costs. Just a simple, effective way to earn a living from the comfort of home."

During the webinar, Thompson takes people behind the scenes of the Quantum Marketing System, as can be studied on <http://www.quantummarketingsystem.com/>. He then aims to teach participants how they can build a huge pipeline of business selling term life insurance and how to do this remotely. He goes through the ins and outs of the highly leveraged marketing system that is designed to deliver real results.

The information that Thompson will provide is said to be fully exclusive and it isn't available anywhere else. However, he only has 100 spots available on this webinar and it is not yet clear whether he will be running future webinars. Places are getting filled really quickly, so it is important to register as soon as possible.
