

Womens No Show Socks Relaunched With Bonus Laundry Bag

December 03, 2015

December 03, 2015 - PRESSADVANTAGE -

The Little Bamboo, a well known retailer on the shopping portal, Amazon.com has announced that they have re-launched their very popular womens no show socks. The bamboo socks will now also come with a free bonus laundry bag, hopefully forever solving the mystery of the disappearing sock. The no show socks have been very positively received by customers.

Sharon Allen from The Little Bamboo says: "Our no show socks have been very popular for a long time and we're so happy to have come to an agreement with our manufacturer to re-release them. The laundry bag is just a nice little extra that we hope our customers will appreciate. We all know how often we lose single socks during laundry, and particularly small socks, so this could just be the perfect solution."

The women's no show socks are made with bamboo fibers. Few people realize that bamboo can actually be used to make clothing. In reality, it is a suitable material for clothes. The fibers are soft and allow the skin to breathe, which leads to less discomfort in hot climates. At the same time, it is able to retain body heat, which means that they are equally good for colder climates.

The socks are now becoming increasingly popular once again. "I don't like my socks to show in my shoes and these socks work great," says Kathy Robinson. "One of the main problems with the usual no show socks is that they slip off the back of your foot. These particular socks have a way of not letting this happen. They have a little plastic grip on the back of the heel to prevent them from slipping off your foot. They are made of bamboo fibers which help them feel soft and like "silky hose". They can be worn with my favorite tennis shoe or even dress shoes. Easy to care for by hand washing or by machine. Good product."

The Little Bamboo has an entire product line of products made from bamboo such as bamboo socks for both men and women, bamboo placemats, bamboo boxer shorts, bamboo t-shirts, as well as bamboo charcoal facial soap.
