

GERO Releases Best-Selling Gun Cases

December 21, 2015

December 21, 2015 - PRESSADVANTAGE -

Federal Heights, CO business GERO is proud to announce that they have recently launched their brand new gun case. Although the gun case has only been available for a short period of time, it is already gathering a lot of attention. In fact, GERO believes it will soon be a bestselling item.

Isaac Salguero from GERO says: "We are known for our high quality gun cases and other accessories. Our latest case is really the culmination of years of research and product testing, and we believe that it is truly the best out there. We are very happy to see that our customers are already liking it so much."

The GERO gun case is completely waterproof. It is made of ABS plastic and has gun and ammo customizable foam. It fully conforms with the MIL-STD-810F Transit Drop Test and Immersion Test. Additionally, it is SAE J575 Dust Resistant. The case has been designed to keep all guns safe and protected from any dangers from the outside. It is incredibly durable even when dropped. Because the foam insert can be customized to the gun holder's needs, it also allows for much quicker and easier draw.

It is also possible to add locks and padlock hasps to the gun case. This means that keeping guns in the home or anywhere else near or around children is much safer. Considering the fact that it has recently been shown that toddlers were responsible for more deaths by shooting than terrorists in 2014, this is a very important

feature.

The gun case has already been very positively reviewed by the people who have purchased it. "This was worth every penny," says one happy customer. "It will be a great addition to our camping, hunting and boating trips. No more worrying about our equipment getting wet or thrown around. The foam inside allows me to customize the case to fit whatever we need. It is durable, even when dropped or kicked around. This case does have a lifetime warranty, which is cool, but with as ruggedly as it is built, it will withstand the test of time. And, we can't forget that it's made in the USA."

To give people more clarity on how to use the gun case and what its benefits are, the business has also released a demonstration video on YouTube. The video is available on <https://www.youtube.com/watch?v=kD3DP2MxpIM>.
