IMSource.org has announced that they have launched KMoneyMastery, which is a course that is designed to teach ordinary people how to create a simple, scalable and sustainable online passive income stream through Kindle publishing. The program is already proving to be very popular. Full details about the system are available [here](#).

"Our system is designed to provide people with step-by-step instructions on how to make a six figure passive income through Kindle publishing," says Greg Jeffries from IMSource.org. "Our focus is on delivering real information from real people, to help everyday individuals gain financial independence."

Self publishing through Amazon Kindle is one of the fastest and easiest ways to make real money online today. With the right tools and information, people can have a book published on Amazon within 24 hours, at which point it is available for purchase, enabling them to earn a passive income.

Interestingly, IMSource.org declares that no skills are required for utilizing this system. They provide advice and guidance for people on how they can outsource and automate the entire process of writing a book, at

which point they can simply sit back and watch their income grow. And since it is achieved through Amazon, people don't even need to have knowledge on internet marketing.

The system has been tested by a number of people who have all been very enthusiastic. "About one year ago, I started with KMoneyMastery after having been unemployed for about six months," says Lars, a KMoneyMastery member. "I started out of desperation, wanting to do something other than working towards someone else's dream. After starting, I literally went from earning nothing to earning \$10,000 a month in passive income. I can't believe how easy it was and I must thank KMoneyMastery for getting me started, as I am now living my own dreams."

Signing up to KMoneyMastery can be done through <http://imsource.org/kmoneypr> and takes just a few minutes to complete. After that, people are able to start making money through Amazon Kindle almost straight away, and watch their income grow exponentially.
