

Cicoria Tree and Crane Service Espouses the Benefits of a Certified Arborist Consultation

May 16, 2023

May 16, 2023 - PRESSADVANTAGE -

Cicoria Tree and Crane Service, Inc., a full-service tree care company serving the North Shore of Boston and Essex County, is inviting local customers to find out more about the benefits of a Certified Arborist consultation.

Certified Arborists possess extensive knowledge in tree care and maintenance, ensuring accurate assessments and informed recommendations. Their training covers tree health, risk assessment, proper pruning techniques, and more. The certification also guarantees adherence to industry standards and ethical practices, ensuring the well-being of trees and the safety of surrounding property.

Moreover, Certified Arborists can identify potential tree-related hazards and guide their clients on mitigating risks, preserving the beauty and value of the property's landscape. Consulting with a Certified Arborist promotes sustainable tree care, enhances aesthetics, and safeguards the long-term health of all plants and trees on the property.

Cicoria Tree and Crane Service boasts five Certified ISA Arborists, and even one Board Certified Master Arborist, among its crew of tree care experts. The company also offers clients the services of four Certified Treecare Safety Professionals (CTSP), seven Certified Pesticide Applicators, and two Tree Risk Assessment Qualified Professionals (TRAQ).

The range of services covered in a Certified Arborist consultation from Cicoria Tree and Crane Service includes tree vs. people conflicts, people vs. people tree conflicts, tree disorder diagnosis, hazard tree appraisal, tree inventory, landscape appraisal, construction planning, invasive species, identification, expert testimony, tree & shrub id, and tree dispute resolution.

“Arborists are, by definition, trained in the art and science of planting, caring for, and maintaining individual trees,” says the spokesperson for Cicoria Tree and Crane Service. “With their skills having been tested and verified by the ISA, the International Society of Arboriculture, you can rest assured that only the best and most experienced professionals will arrive on your site to remedy your property’s tree care problems. Our high-performing team has six such individuals whose combined experience ensures that the trees on your property will be cared for, such that they have the best chance for long-term success.”

The company’s ISA Certified Arborists are far from its only competitive advantage. Cicoria Tree and Crane Service is also the only independent tree care company in its service area that has been awarded the TCIA Accreditation. The accreditation helps consumers identify qualified tree care companies who have undergone a comprehensive on-site audit of professional and business practices. TCIA Accredited companies are required to meet stringent criteria for professionalism, employee training, state and federal safety regulations, business ethics, and consumer satisfaction.

The family-owned and operated company’s expert crew of Certified Arborists and its several industry accreditations are backed up by a range of high-quality industry standard equipment that allows it to efficiently service the region’s naturally tall tree species. The company’s clients also praise it for its helpful and prompt customer service, a sentiment that is reflected in the many Cicoria Tree and Crane Service reviews and an impressive overall rating of 4.8 out of 5.0 on its Google Business Profile.

A recent review says, “We had Cicoria Tree Service remove a 100' pine tree in our backyard. Limited access due to septic system. They had a 90' lift instead of a bucket. Very limited space to work in. Managed flawlessly. Protective mats were used. Left area spotless. They also removed a pine in the front next to the electric wires. Again, removed with no problem. No trace they were ever here. The three-man crew worked as a team and got the job done! Highly recommend. Polite and friendly. Will use them again.”

Another satisfied North Shore homeowner writes, “Cicoria Tree did an excellent job removing a large oak

and a previously fallen trunk from a very tight and challenging space. The men were kind, courteous, on time, and left my property cleaner than they found it. Highly recommended. I would definitely use their services again.?

Readers can contact Cicoria Tree and Crane Service at (978) 922-5500 to schedule a consultation with its Certified Arborists or to request an estimate.
