IMSource.org is now promoting a new method of making money through Kindle, known as KMoneyMastery. This organization is a known authority on things about internet marketing, SEO and more. They frequently review and research different internet marketing products and come up with stringent verdicts that literally make or break companies. But with KMoneyMastery, they have decided to fully recommend it.

"It takes some doing for a program to really get the go ahead from us," says Greg Jeffries, the mastermind behind IMSource.org. "We pride ourselves on our honesty and don't want to recommend anything or anybody to our followers that won't benefit them in some way. We fully recommend KMoneyMastery, however. It has literally passed all our tests."

KMoneyMastery is a three-sided program. First of all, it teaches people how to become self published authors on the Amazon Kindle marketplace. Secondly, it teaches how to outsource and automate their writing and publishing work, so that they don't actually have to be proficient writers or marketers themselves. Finally, they offer people the opportunity to earn a secondary stream of income by becoming affiliates for the program itself.

"To be fair, KMoneyMastery had us at their affiliate program," adds Greg Jeffries. "The package they offer, including 50% commission, is out of this world. Anyone can literally do it. The fact that the program itself is usable as well is just an added bonus."

KMoneyMastery has been around for over two years now. In that time, they have established themselves as the best, easiest and most affordable tutorial on how to become a self published Kindle author. Thousands of people have already tried their program over the past two years, and they have been full of praise.

"I was sick of working for the man, sticking to his schedule and basically building his dream," says one happy customer. "I came across KMoneyMastery when I was six months out of work and in truly desperate times. It took no time whatsoever for me to get back on my feet and I have never looked back since."
