

EPS Landscaping & Tree Service LLC Is Offering Landscaping Recommendations to Broward County Homeowners

June 30, 2023

Pembroke Pines, Florida - June 30, 2023 - PRESSADVANTAGE -

EPS Landscaping & Tree Service LLC, a landscaping company based in Pembroke Pines, Florida, is urging local homeowners to find out more about the several landscaping options available to them, ranging all the way from simple and affordable designs to high-end luxury installations.

Outdoor landscaping helps property owners increase their home or commercial building's aesthetic appeal, creating a more inviting ambiance to entertain guests or attract customers. Depending on the intended purpose and the amount of outdoor space available, homeowners have tons of choices on how to spend their budget to get the results they have always dreamed of.

For Florida homes, EPS Landscaping & Tree Service LLC recommends opting for a tropical landscape design since it is a perfect match for the state's humid climate. Tropical landscaping also makes it easier for homeowners to care for and maintain the plants on their property as they are carefully selected to thrive in

the weather conditions in Florida all year round. Some of the plants that work with the low-water tropical setting include birds of paradise, daylilies, plumeria, Rose of Sharon, and Zephyranthes.

Clients can also consider adding water features like a pool or a small waterfall or a layering of lava rock to contrast the lawn's greenery or creating an island décor with accessories such as hanging lights or tiki torches. The area around an in-ground pool can be turned into an oasis with the use of tropical landscaping that not only looks great but is also easy to maintain. Other common lawn improvement methods include sod installation and setting up sprinklers to make sure the plants on the property are properly irrigated.

The spokesperson for the company talks about the benefits of working with a professional Pembroke Pines landscaping contractor by saying, "There is a lot of work involved and, most importantly, it must be done in the right order. A professional landscaper will understand your vision for your property and recommend the best options for the home's size and budget. The methodical process begins with creating a rough outline, taking the necessary measurements, procuring all the materials including the right kind of tropical plant life, scheduling, and then providing ongoing supervision. So, if you are looking for a stress-free and seamless landscaping upgrade, make sure to call our team at EPS Landscaping & Tree Service LLC."

The company's services include landscaping, tree care services such as tree trimming, pruning, and planting, lawn care including mowing, maintenance, fertilization, lawn pest control, and weed control, and irrigation including sprinkler system installations, maintenance, and repair. The company serves homeowners and businesses all over Broward County including Hallandale Beach, Hollywood, Miramar, Pembroke Pines, Southwest Ranches, and surrounding areas.

EPS Landscaping & Tree Service LLC boasts a perfect overall rating of 5.0 out of 5.0 on its Google Business Profile with customers praising the company's knowledgeable and punctual crew members, its ability to offer creative, yet affordable, landscaping design solutions, and its helpful customer service.

One customer writes, "Highly recommend!!! Great folks to deal with. Very professional, easy to deal with, very punctual, great, and fast work (very detailed and professional), and great price!! Will be using for all my other properties and family properties as well."

"If you still need convincing that going with an experienced landscaper is the right way to go," says the spokesperson, "you only need to look at industry statistics that substantiate your intuition. Research gathered by the University of Vermont has shown that landscaping can add up to 14 percent to the resale value of a building and speed up its sale by 6 weeks. In fact, the American Society of Landscape Architects has recommended investing 10% of your property's value into landscaping costs. Even spending 5% of the home's value on landscaping results in at least 150% return on your investment."

Readers looking for the best lawn service in Pembroke Pines can reach out to EPS Landscaping & Tree Service LLC at (954) 980-9003 for inquiries.
