

Lice Charmers Opens New Head Lice Treatment Clinic in Clackamas, Oregon

June 20, 2023

June 20, 2023 - PRESSADVANTAGE -

Lice Charmers, an industry leader in head lice treatment services, has announced the grand opening of its state-of-the-art lice treatment clinic in Clackamas County, Oregon.

The new clinic will provide comprehensive and scientifically-tested lice removal services to effectively address a crucial public health concern for Clackamas County, West Linn, Oregon City, Lake Oswego, Happy Valley, Damascus, Milwaukie, Gresham, and surrounding areas.

Head lice infestations, a common challenge affecting both children and adults worldwide, are notoriously hard to treat. Traditional over-the-counter lice treatment kits often fall short, resulting in ongoing frustration and discomfort. Lice Charmers' new clinic in Clackamas will offer a comprehensive suite of lice treatment solutions, using tried-and-tested, research-based methods for lice, super lice, and nit removal.

"Our new Clackamas clinic is a game-changer for families dealing with head lice," said Alexis Charriere, founder of Lice Charmers. "Our unique approach to lice treatment and prevention, which incorporates the latest scientific findings and natural lice removal techniques, ensures an effective and non-toxic solution for our clients."

By using holistic lice removal methodologies, Lice Charmers Clackamas lice clinic promises a safer and more efficient alternative to traditional lice treatment products, which often contain harmful chemicals. The new clinic will offer detailed scalp inspections, professional lice removal services, and personalized education on preventive measures against future infestations of pediculosis.

A significant part of the Lice Charmers' mission is to provide knowledge and understanding about head lice, their life cycle, and how they spread. With this commitment to public education, the Clackamas clinic aims to break the stigma surrounding lice infestations and empower individuals and communities with the tools to effectively eliminate lice.

"We don't just focus on removing lice; we are dedicated to educating the community about this common issue," added Charriere. "Our team of lice treatment experts is ready to serve Clackamas County with not just high-quality services, but also the necessary knowledge to prevent future outbreaks."

The Lice Charmers' clinic is prepared to go beyond the ordinary with an end-to-end process that offers a complete range of head lice solutions. Each member of the team is rigorously trained to deal with different stages of infestation and has vast knowledge in understanding the nuances of lice behavior, including super lice which have developed resistance to conventional treatments.

The clinic's operations are centered around holistic principles that ensure the comfort and safety of clients, especially children who are commonly affected. Conscious efforts are made to provide a warm, welcoming environment that diminishes the anxiety often associated with lice treatment procedures. Child-friendly facilities and activities are designed to distract and engage children while the lice removal process is underway.

Alexis Charriere, with her extensive background and dedication, brings a much-needed fresh perspective to lice removal solutions in Clackamas County. Her relentless commitment to research has led to the development of a robust lice treatment protocol that provides quick relief and sustainable prevention strategies for families.

Moreover, Lice Charmers plans to extend its community outreach efforts by conducting educational seminars and workshops in schools, daycares, and local community centers across Clackamas County, West Linn, Oregon City, Lake Oswego, Happy Valley, Damascus, Milwaukie, and Gresham. These initiatives aim to debunk myths associated with head lice and pediculosis and equip communities with the knowledge to handle potential infestations.

In line with their mission, the clinic also encourages the use of environmentally friendly, non-toxic lice treatment products. These products, available at the clinic, promise to be safe for home use and are an excellent preventive measure to keep lice at bay, especially for families with school-going children.

The grand opening of the Lice Charmers' clinic symbolizes a new chapter in lice treatment services in the region. With this significant addition, families in Clackamas County and surrounding areas now have a dependable partner in their fight against lice infestations. The team at Lice Charmers invites everyone to visit their new clinic and learn more about their comprehensive range of lice treatment services.
