Mighty Dog Roofing Northern Cincinnati Uses Advanced Technology for Convenience of Customers

July 18, 2023

July 18, 2023 - PRESSADVANTAGE -

Mighty Dog Roofing Northern Cincinnati, a roofing contractor based in Fairfield Township, OH, wants to emphasize their use of advanced technology for the convenience of their customers. For instance, they provide the Mighty Dog Visualizer, which is an app that can run on a smartphone and can be used by the homeowner to test various roofing materials and colors. This app allows the homeowner to view their home?s exterior using various alternatives allowing them to easily choose the specific color, material, and other factors, ensuring the resulting curb appeal of their home is suited to their specific preferences and taste. Those who would like to learn more about the various services they can provide can visit company website.

A spokesperson for Mighty Dog Roofing Northern Cincinnati says, ?Mighty Dog Visualizer will help you customize your Northern Cincinnati Ohio home exterior appearance with photos of your home right from your smartphone. Allowing you to use before and after tools to assist in the design of your exterior. Our Mighty Dog visualizer allows you to view your Northern Cincinnati Ohio home exterior with different product and color options so that you know which are the right fit for your project and tastes. This is just one of our use of advanced technology for your convenience.?

Mighty Dog Roofing Northern Cincinnati also employs advanced technology for their 25-point roof inspections. Using drone technology to perform inspections, they can take a look at 25 elements of the roof and home exterior including: inspection of storm damage caused by the wind; eaves and rakes inspection; inspection of siding; inspection of valleys; inspection of storm damage caused by hail; drip edge inspection; inspection of furnace caps and pipes; inspection of gutter aprons; chimney inspection; ventilation inspection; inspection of step and counter flashing; roof edging inspection; nail head inspection; hip and ridge inspection; plumbing stack inspection; gutters inspection; attic inspection; downspouts inspection; roof ventilation and exhaust system inspection; soffits and fascia inspection; foundation drainage inspection; inspection of roof sheathing or decking; window inspection; air conditioning unit exterior inspection; and inspection of step counter flashing.

They also offer the Watchdog Maintenance service, which involves annuals inspections and year after year comparisons to determine how long the roof will last. These maintenance records will play an important role in insurance claims and they can be shared with insurance firms. The information can also be shared with realtors when they sell the house. More importantly, the annual inspections ensures that minor problems, such as small roof leaks, are addressed promptly to ensure they will not worsen and become serious problems in the future that will be expensive to fix.

Meanwhile, all of the information gathered from inspections and maintenance checks would only be wasted if these are not properly stored. That is why they also provide the Customer Vault, which is storage allocated for each customer to keep relevant information that can be accessed quickly when needed. The Customer Vault will contain reports, products used, photographs, warranties, maintenance records, referrals, all communication made during a roofing project, and more.

In addition, the spokesperson says, ?We also offer a full range of the best commercial roofing services to businesses in and near the Northern Cincinnati Ohio area, such as roof inspection, roof repairs, replacement, and maintenance. Our team can tackle commercial roofing projects no matter how big or small the job may be, using only the highest-quality roofing materials. After all, your business is your livelihood. A sub-par commercial roofing company using sub-par materials and tools need not apply.?

Mighty Dog Roofing Northern Cincinnati is owned and operated by Matt Bauman, who has lived in Cincinnati for over 30 years. Originally from Minnesota, he prefers having all four seasons to enjoy outdoor activities but he full understands the effects of weather on the roof the exterior parts of the home.
