Buki Yuushuu Announces that "Size Does Matter" and Has Now Added More Bo Staff Sizes to its Product Line

December 14, 2015

December 14, 2015 - PRESSADVANTAGE -

For anyone planning to become skilled in the use of Martial Arts Weapons, top weapons manufacturer Buki Yuushuu emphasizes, "size DOES matter!" As any practitioner of Martial Arts knows, it is of the utmost importance to work with a weapon that is the correct size and weight for them, and for the maneuvers they are practicing. This is particularly true when it comes to the Bo Staff that is chosen to work with. A good rule to follow for beginners or general training purposes is to choose a Bo Staff that is equal to the practitioner's height in inches.

For more advanced users such as Extreme Martial Arts and tournament competitors, a Bo Staff that reaches eye level is recommended. (https://www.youtube.com/watch?v=DXZiLO_n3mg). This reduces the risk of the Bo Staff making contact with the ground as the user executes extreme or advanced moves.

To accommodate all levels of users, Buki Yuushuu offers custom sizing of all Bo Staffs they sell. The Bo Staffs are available for purchase in one-inch increments ranging from 36" to 72" to provide the perfect size for all users. Bo Staffs are available in various thicknesses as well for those who have advanced through the various skill levels and routine moves and are ready to move to the next level of a weapon for more extreme

training.

Along with custom sizing, Buki Yuushuu offers their Bo Staffs in a wide range of colors and prints to further personalize each staff to its user. Specific words, phrases, and name personalization can also be added if the customer so desires.

Weapons are also available that are appropriate for children's use in training. These are also customizable for ease of handling and execution of moves for even the youngest beginner. All safety and durability features are in place and are guaranteed. Buki Yuushuu offers only the highest quality weapons at very reasonable prices.
