

Fire Cleanup and Repair Company in the Tri-State Area of Philadelphia Touts Five Star Reputation

September 11, 2023

September 11, 2023 - PRESSADVANTAGE -

MDL Restoration, a company based in Tullytown, PA that delivers property restoration services, such as fire cleanup and repair, for the Philadelphia tri-state area, takes pride in their five-star reputation. This property restoration provider has an overall rating of 4.7 out of 5 stars on Google and offers various damage restoration services, such as fire damage restoration, water damage restoration, mold remediation, full reconstruction services, and biohazard / trauma cleanup.

In one recent review, Kawamaine B. gave the company a five star rating and revealed that he previously worked for MDL Restoration. He says, "As a former employee I can tell you that this company is really good at what they do. The leadership team is great. Eric Harris who was my supervisor really cared about his work, customers and the employees. Always went the extra step for everyone. The owner Mike really good guy really give people the opportunity to progress in life, sometimes even when they don't deserve it. Good company all the way around they have really good morals that they stand on. Good family values it was like really having a second family."

Fire can be the most destructive of the various disasters that may occur in a property. Even if the firefighters are able to put out the fire on time, there is still a lot of cleanup and repair to be done to restore the property to its original condition. The water used for putting out the fire is still in the property and the longer this is allowed to remain there, the more damage it may cause to valuable possessions and to the home. There is also the damage caused by the fire, soot, and smoke. Fire damage restoration typically requires complete rebuilding of a structure and cleanup, such as: smoke damage repair; upholstery cleaning; floor, wall, and ceiling repair; and carpet cleaning and replacement. Luckily, MDL Restoration is capable of handling all of these things.

Natasha L. from MDL Restoration says, "Dealing with the aftermath of a fire and the resulting mess can be overwhelming. With MDL's fire restoration services, however, it does not have to be a complete nightmare. Our IICRC-certified cleaners are well-equipped to restore your property to its previous condition. MDL's goal is to lessen your burden during this challenging time, so do not hesitate to call us today."

MDL Restoration can also provide water damage restoration services to restore the property back to its original condition after a flooding that may have been caused by a severe storm and also plumbing issues, leaks from appliances, roof leaks, and more. Water damage is a common problem in the Philadelphia area because of its frequent severe weather that includes flooding, thunderstorms, tornadoes, and lightning. Excessive rain that affects the water levels of the Schuylkill River, Delaware River, and local creeks and streams, can cause flooding.

Natasha L. says, "It can be stressful and even devastating to see partial or complete water damage throughout your Philadelphia property, and you may be wondering what steps you can take to deal with the issue that is currently standing in front of you. While the current level of damage may seem insurmountable, you can rest assured that there is a simple solution available. Through the efforts of our team at MDL Restoration Inc., your current issue will soon be a thing of the past."

Water getting inside the home or property can also lead to mold growth, which can cause health problems for certain residents. That is why they also offer mold remediation services. They can also provide biohazard / trauma cleanup services, such as: crime scene cleanup, suicide cleanup, unattended death cleanup, and blood cleanup.

Established in 1980, MDL Restoration Inc. is a full service emergency mitigation and restoration contractor for residential homes and commercial buildings in Eastern Pennsylvania, New Jersey, and Delaware. The company is focused on helping people recover from disasters like flood, fire, storm, mold, and more.

Those who would like to know more about the different kinds of services offered by a property damage restoration company like MDL Restoration can visit their website or contact them through the telephone or via email.
