

Bumble Bee Blinds Is Offering Window Treatment And Installation Services In Avon, OH

October 18, 2023

October 18, 2023 - PRESSADVANTAGE -

Bumble Bee Blinds of Avon, Ohio, is ready to serve local homeowners and business owners looking for the best window treatments and solutions for their residential and commercial properties. For more information, visit web site.

The company's range of window treatment products includes blinds, shades, shutters, drapery, curtains and hardware, motorization and home automation, and outdoor solutions. Bumble Bee Blinds of Avon handles everything from the initial consultation to ordering, installing, and completing the window treatments while customers sit back and watch their chosen designs come to life.

Avon homeowners can opt for window blinds for precise control over natural light at any window. They are also a great way to revitalize and personalize the living space for an affordable cost. Customers have the choice between a range of materials including wood, composites, aluminum, and more. For a more luxurious result, homeowners can choose drapery and curtains that both add privacy and give the room a cohesive design theme.

Window shutters, made from wood or faux wood and composites, are an elegant addition to any window space and offer rooms a distinctive look and privacy that lasts for decades. Homeowners can also go for window shades that are ideal for controlling how much light enters a room and are effective at keeping heat inside during cold winters or protecting the room from excessive sun exposure during the hot summers.

The Avon window blinds and shutters company also offers motorized window treatments that are hooked into the home automation system. The integration makes it easy to transform any home into a smart, efficient, and stylish sanctuary. Finally, the company offers outdoor solutions that property owners need to shield themselves from harsh sunlight, extreme temperatures, and pesky insects while outside and create the perfect outdoor oasis.

Customers in Avon can get started with Bumble Bee Blinds' products and services with its free in-home consultations. Instead of making multiple trips to the local Avon showroom, customers can rest assured that its skilled experts will arrive on-site fully stocked with a wide variety of samples and all the equipment needed to measure the window frame, grommet, and valance spaces with precision.

"Once you place your order," says the spokesperson for Bumble Bee Blinds, "we will contact you to schedule a convenient installation time. Our crew members have years of experience on the job and know exactly how to finish the window treatment installations right the first time. After the installation is complete, we will also provide a full walkthrough to ensure that you know how to operate your new, custom window treatments properly. For more information on how we operate, visit company website."

Bumble Bee Blinds of Avon is owned and led by Joey and Shana McCormick who are both graduates of the University of Cincinnati and were born and raised in Northeast Ohio. For the better part of the last 12 years, Joey has worked in the medical device industry, managing large teams across half the country and receiving several sales distinctions. On the other hand, Shana works with the pediatric population in the healthcare field. Their appreciation for the local Avon community has inspired them to get involved, meet more amazing people, and give back in any way they can.

Bumble Bee Blinds has been thoroughly praised over and over again by customers for delivering high-quality results with responsive customer service and at a reasonable price. A recent review says, "Very professional, timely and provide excellent customer service. They made it very simple for me and my blinds look fantastic. The product is of great quality. I have already recommended them!" Another customer writes, "I've purchased from them twice - both blinds and shutters and have been extremely pleased both times with the quality of the products and installation."

Readers can contact Bumble Bee Blinds of Avon at (440) 739-6266 to inquire about its window treatment services or to book an appointment. For in-person meetings, Avon residents can visit the company at this address.
