

Patio Sliding Glass Door Replacement Contractors Company Offers Services in Anaheim

November 07, 2023

Anaheim, California - November 07, 2023 - PRESSADVANTAGE -

Metropolitan High Performance Windows, a company based in Anaheim, CA, is offering sliding glass door patio door installation in Anaheim and neighboring areas. There is a rising demand for sliding patio doors because homeowners and home builders are realizing the various benefits of open concept living spaces. These include more natural light, enhanced flow and functionality, improved social interaction, modern and stylish design, and increase in home resale value. Metropolitan High Performance Windows is a door and window installation company that offers its services to Anaheim, Los Angeles, Kern, Riverside, Orange, and San Bernardino Counties.

Paul Richart, owner of Metropolitan High Performance Windows, says, "If you're looking for a quick way to enhance your home, apartment, or condominium's appearance, consider having Metropolitan High Performance Windows professionally install stylish, affordable, energy-efficient patio doors. Replacing your old patio doors with new sliding glass doors is a cost-effective way to enhance your kitchen, family room, or any other area of your living space. However, aesthetics isn't the only benefit sliding doors offer. In addition to making your home, apartment, or condominium more attractive, replacement patio doors can save you money and keep you more comfortable throughout the year."

As one of the leading Anaheim sliding glass patio door contractors, they will follow a proven five-step insulation process to ensure top-level customer satisfaction. In the first step, once the homeowner has decided to hire Metropolitan High Performance Windows for their window replacement of the door installation project, they will perform a final walk-through inspection of the home and re-measure every door or window and re-confirm the client's choices, options, and preferences. In the second step, they will immediately place an order for the replacement doors and windows from their manufacturing facility, custom-measured to the specifications of the home. Production time is typically two to two and a half weeks.

In the third step, they will contact the client within seven to 10 days to schedule the installation at a day and time that the client prefers. They will provide the client with the name of the crew chief who is assigned to the project and will answer any additional questions the homeowner may have. In the fourth step, the crew will arrive at the specified date and time for the installation and start the project. Most jobs are finished within one to two days. They assure clients that they will never interrupt the installation process to work on another project. The crew will clean up as they go and will never leave behind an open, uncompleted window or a mess.

In the fifth step, after the completion of the project, they will provide the homeowner with a customer satisfaction survey to enable them to rate the work they have completed, including the kind of experience they had with Metropolitan High Performance Windows.

They want to emphasize that there are a number of important distinguishing factors that make them the preferred choice as a window or door installation company in Anaheim and surrounding areas. First, they provide a lifetime warranty for the leading-quality aluminum and vinyl replacement windows and patio doors they install. Second, they are always ready to provide a free same-day estimate. Third, they offer fast and hassle-free turnaround. Fourth, they ensure expert installation and cleanup. Fourth, they provide the best customer service in the industry. They have been winning the Angie's List Super Service Award for five consecutive years. They also won the 2018 Pulse City Award for Excellence in Customer Satisfaction.

Founded in 1998, Metropolitan High Performance Windows is a family-owned and operated company that specializes in selling and installing high quality patio doors, french doors, replacement windows, and even built-in doggy doors. They can provide a broad variety of styles to allow homeowners to achieve their preferred style for their home. With more than 20 years of experience, the company takes pride in its unmatched quality of workmanship, expert advice and dedicated customer service support.
