

Valley Dental - Where Comprehensive Family Dentistry Meets Exceptional Pediatric and Sleep Medicine Expertise

December 08, 2023

December 08, 2023 - PRESSADVANTAGE -

Valley Dental, a cornerstone of the Fargo community located at 1338 Gateway Dr S, has firmly established its reputation for providing superior dental care for families. Led by the compassionate and skilled Drs. Meghan Smith and Matthew Eaton, both alumni of the University of Minnesota School of Dentistry's 2010 class, Valley Dental offers an exceptional blend of general, pediatric, and sleep dentistry services.

From their early years in Devils Lake and Fargo respectively, Drs. Smith and Eaton have carried their passion for community and family into their practice. With a shared vision, the dynamic duo has integrated a comprehensive approach to dental care, extending their services to patients across all age groups ? from the youngest smiles to those boasting a century of stories.

Valley Dental prides itself on delivering a brand of dentistry that is as warm and personal as it is professional. Recognizing that each patient has unique dental needs, Drs. Smith and Eaton tailor their care with precise attention to detail, aiming to achieve long-term health and satisfaction. This patient-centric approach is further reinforced through the practice?s strong emphasis on education and communication.

At Valley Dental, the understanding is that excellent dental care hinges on a collaborative relationship between the dentist and the patient. This philosophy is embodied in the services provided, ranging from routine check-ups to advanced treatments. Prospective patients are encouraged to learn more about their general dentistry and how Valley Dental can be their partner in maintaining their dental health.

In her passionate pursuit of exceptional care for children, Dr. Smith has expanded her expertise through a mini-residency in Pediatric Dentistry at the University of MN School of Dentistry. Her gentle demeanor and specialized training make dental visits a positive, fear-free experience for children. Valley Dental recognizes the importance of early dental visits on a child's long-term oral health and strives to create an environment in which young patients can learn the value of dental care. Dr. Smith's dedication to pediatric dentistry ensures that even the youngest members of the family will have access to top-tier dental care. Parents seeking specialized dental care for their children are invited to explore the pediatric services that set Valley Dental apart.

Dr. Eaton has distinguished himself in the field of dental sleep medicine, particularly in the management of obstructive sleep apnea (OSA), a condition that affects the health and well-being of countless individuals. Recognized as a Diplomate by the American Board of Dental Sleep Medicine in 2015, Dr. Eaton's expertise is at the forefront of innovative dental sleep solutions. His efforts in education, including national and international lectures, emphasize his commitment to combating sleep apnea and improving patient quality of life.

Having completed advanced training at the respected Advanced Dental Implant Institute, Dr. Eaton also brings a wealth of knowledge in sedation and implant dentistry. Fargo residents suffering from sleep apnea or those interested in learning about the benefits of dental implants are encouraged to schedule a consultation with Dr. Eaton at Valley Dental to receive expert care tailored to their needs.

The team at Valley Dental is driven by a mission to deliver dental care of the highest quality. This mission is manifest not only in the array of services provided but also in the practice's fundamental values. As a family-owned business, Valley Dental understands the importance of integrity, professionalism, and personalization. It is precisely these values that ensure patients receive the best care possible.

With the opening of their doors to new patients, Valley Dental is thrilled to welcome individuals and families seeking to establish or continue their journey to optimal dental health. Whether it's a routine examination or the quest for a brighter smile, Drs. Smith and Eaton are ready to build lasting relationships based on trust and exceptional care.

Valley Dental is more than just a practice ? it is a place where families grow, smiles are brightened, and the community comes together for the betterment of their collective health.
