

Mohave Eye Center Welcomes Dr. Daniel Crook to Their Bullhead City Location

January 08, 2024

January 08, 2024 - PRESSADVANTAGE -

Bullhead City, AZ ? Mohave Eye Center has announced that they have added Dr. Daniel Cook, O.D., to their team at their office in Bullhead City. Located at 3003 Hwy 95, Suite 11, Bullhead City, AZ 86442, Dr. Crook will add his passion and expertise to the existing team. An experienced and skilled eye doctor, Dr. Crook enjoys working with patients of all ages and ensuring every patient receives individualized and compassionate care.

?I am very excited to join the team at Mohave Eye Center,? said Dr. Daniel Crook, ?I have never had a team to work with, and I?m so grateful to be able to work with this particular group of people. They make ?work? not feel like work. The equipment we have access to, the amazing surgeon on our staff, the connection that comes with learning from so many talented optometrists under one roof ? I got lucky.?

Mohave Eye Center is a unique practice that offers both optometry and ophthalmology, allowing their clinic to provide a large range of vision, eye disease, and surgical services for their patients. This one-stop-shop model makes them highly sought after by the local community who have grown accustomed to the high-end, patient-oriented care provided by their knowledgeable doctors and optical staff.

?Our team is thrilled to invite Dr. Daniel Crook to Mohave,? said Dr. Andrew Ochiltree, ?we pride ourselves on delivering top-notch eye care with a personal touch. Not only is Dr. Crook an excellent optometrist, his obvious empathy and ability to listen to his patients was a signal to us that he would go above and beyond to give patients what they need, while also making them feel cared for and comfortable.?

Dr. Crook?s interest in optometry began in high school when an academic advisor identified his skill set as being a good fit for eye care. This spurred a lifelong interest in eye health. In an effort to learn as much as possible for his budding career, he worked as an optical technician while in college. In that job, Dr. Crook learned how to fit and adjust frames, how frames worked, and how to grind and edge lenses. By the time he

started optometry school, he had already developed a strong optical foundation.

"Dr. Crook's optical background is a huge asset to our team," said Dr. Jeffrey Bergeson. "Each of our locations carry more than 850 glasses frames, which makes an eye doctor that knows frames and has fun helping patients get fitted for new eyewear a valuable addition. Furthermore, Mohave Eye Center values the community we serve, and we were impressed with Dr. Crook's philanthropic mindset and the volunteer hours he puts in at his church. In every way we feel that he's a perfect fit."

Mohave Eye Center is currently accepting appointments for new and existing patients.

About Mohave Eye Center

The Mohave Eye Center was established as a full-service optometry practice in 1960, which was one of the first eye care practices to pioneer combining optometry and ophthalmology under one roof. While they handle most surgical, eye health, and optical services, they are celebrated for their outstanding cataract surgeries and retinal health treatments. Their highly skilled staff and advanced diagnostic technology, including their Optos retinal imager and their OCT Zeiss Cirrus 5000, is why Mohave's eye exams are so accurate – making them the best choice for specialty screenings for disease with difficult-to-identify symptoms related to serious conditions like AMD, glaucoma, and diabetic retinopathy. With a massive selection of more than 850 frames and a premier shopping experience that makes patients feel at home, Mohave Eye Center offers top-notch eye care for anyone and everyone.
