This April, NJ Metro PC Repairs Will Commemorate Its 15th Anniversary Providing Local Computer Repair In Montclair, NJ

March 18, 2024

March 18, 2024 - PRESSADVANTAGE -
NJ Metro PC Repairs Celebrates 15 Years

NJ Metro PC Repairs, a long-respected provider of online computer help and in-home computer services is celebrating its 15th anniversary serving the Montclair community and the surrounding Essex County / Bergen County area.

Founded on April 20, 2009, the computer repair company NJ Metro PC Repairs has provided northern NJ with exceptional computer support and IT services (such as in home computer repair, online computer repair, IT support for small businesses, and data recovery services) for nearly a decade and a half. Montclair residents have likely seen the company's technicians around town at local events, working at neighbors' homes, or supporting community causes through sponsorships.

"We're not just here to fix computers - we're part of the fabric of Montclair," said Chris Mallistone, Owner of NJ Metro PC Repairs. "Providing personalized, local service has been key to our success and longevity. Our customers know they can count on fast, friendly, professional computer support."

NJ Metro PC Repairs offers a wide range of tech support services, including troubleshooting Windows update errors, data backup, boost cybersecurity, remove viruses, email support, fix Internet problems, SSD and RAM upgrades, data migration, tech support, Outlook setup, printer setup, software installation, software support, Boost WiFi to speed up the Internet, hard drive repair, repair Windows 10, repair Windows 11, learn MAC OS, computer lessons, driver updates, printer support, speed up your computer, computer clean up, PC tune-up, fix Windows errors and blue screens, data recovery, computer tutor, password recovery, get rid of malware, home network setup, computer help for seniors, stop pop-ups, recover deleted files and more - everything except physical hardware repairs.

NJ Metro PC Repairs is one of few local computer stores that supports all brands, operating systems, and device types like Dell, HP, Lenovo, Apple, Microsoft, Windows, Mac, iPhone, Android, desktops, laptops, Chromebooks, tablets and smartphones.

With their "No Fix, No Fee" guarantee and 90-day labor warranty NJ Metro PC Repairs has built a nationwide reputation for quality service and exceptional value. "We've worked hard to become the best computer service in Montclair, and look forward to many more years." says Mallistone. "We're growing fast, and can't wait to see what the future will bring."

When asked for a prediction on what the next 15 years may hold, Mallistone spoke of his hopes to build more visibility and adoption for online computer repair services. "It's a fantastic way to provide fast, affordable computer help that more people should be aware of. We've had great success offering remote support locally, and I'm excited to expand our online support to a national customer base. With the right marketing and awareness, we can bring the convenience and affordability of remote tech support to help computer users all across the United States."

As NJ Metro PC Repairs celebrates 15 years as a trusted local computer service provider, the company looks forward to the road ahead. With a proven track record of exceptional service, a commitment to staying at the forefront of technology, and an unwavering focus on customer satisfaction, NJ Metro PC Repairs is poised for continued growth and success. The next chapter promises to bring new opportunities to serve more customers, expand service offerings, and further cement their reputation as a leading name in computer repair and tech support, both in Montclair and beyond.
