

New Company Selling Arizona Land Launched

December 30, 2015

December 30, 2015 - PRESSADVANTAGE -

AZ Land List, a business in Glendale, AZ, is very happy to announce that they have officially opened their doors. The company, which offers Arizona land for sale, intends to work together with property developers and other investors who focus specifically on the state of Arizona. While having only just been launched, the company is already attracting a lot of attention.

"Arizona, in my own opinion, is the most beautiful state in our country," says Troy Murray from AZ Land List. "The fact that I was born and raised here may have something to do with that. From an early age, however, I knew that I wanted to be involved in helping the state become more prosperous and beautiful and I believe that property investing is the way to achieve that. By focusing on land for sale, my company will be able to support this development."

Before launching, the company sourced a large number of plots and other pieces of AZ land for sale. These span the various categories of land, including residential, agricultural and commercial. As such, they have been able to attract a large number of different types of investors almost straight away and they are already building up a reputation as being one of the best in their field.

"I wanted to purchase some land to construct a new commercial development," says Peter K. "I believe in

supporting my local economy, which is why I not only wanted to invest in Arizona, but to do so through a local company as well. Similarly, once construction starts, I will only use companies from right here in Arizona. I'm really happy I came across AZ Land List, who were able to find me the perfect plot in record time. Construction will start soon and I'm sure that I will turn to AZ Land List again for my next investment."

The company encourages everybody to check out their website on <http://azlandlist.com> for future developments and to view the current stock of plots. Additionally, they ask everyone to give their Facebook page a 'Like'. This will enable them to be kept up to date with future developments.
