Accountants, B & H, occupying an office space in University Center I, offers comprehensive tax services to help you this tax season.

If you put a monetary value on your time, you might find that the hours you spend laboring over your tax return ends up costing you more than the services of a tax professional. B & H Tax and Accounting can help save you time and money. B & H offers convenience and accuracy.

There is a lot of room for error when it comes to filing tax forms, but you can minimize that by going to B & H. Their professionals can also help you avoid overpaying taxes by properly identifying all the tax credits and/or tax deductions you're eligible for.

B & H Tax and Accounting are continually up to date on new tax laws and legislation, putting them in a key position to identify tax planning opportunities that minimize your current and future tax liabilities.

They provide individual and business tax services, including: tax planning and return preparation, corporate taxes, partnerships, LLCs/LLPs, estates, trusts & gift, taxing authority representation, divorce and support issues, tax effects of buying/selling a business, and more.

Tax planning involves conceiving of and implementing various strategies in order to minimize the amount of taxes paid for a given period. For individuals and small businesses, minimizing the tax liability can provide more money for expenses, investment, or growth. In this way, tax planning can be a source of working capital.

"Our significant investment in computerized tax preparation and research software enables us to accurately and efficiently prepare returns for various types of entities," says president of B & H Tax & Accounting, Pam Birkholz.
