

Roof US: Leading Roofers in Columbia MO Offer Unmatched Quality and Service with Price Match Guarantee

July 15, 2024

July 15, 2024 - PRESSADVANTAGE -

Roof US, a family-owned roofing company based in Columbia, Missouri, has been a trusted name among roofers in Columbia MO, since 2010. The company offers a variety of roofing services for both homes and businesses, including roof repair, replacement, installation, and inspections. In addition to roofing, they also provide siding services and handle insurance claims. They use a wide range of materials like asphalt shingles, metal roofing, cedar shake, DaVinci synthetic roofing, and slate.

A big part of what sets Roof US apart is its deep connection to the Missouri community. The owners are locals who are dedicated to serving their community, making the company a go-to choice not just in Columbia, but in surrounding areas like Jefferson City, Ashland, Camdenton, Moberly, Fulton, Lake of the Ozarks, Marshall, and Bonneville.

One thing that really makes Roof US stand out among roofers in Columbia MO, is their lowest price match guarantee. This promise ensures that customers get competitive rates without sacrificing quality. The company is also known for its excellent customer service, which makes the entire process smooth and

transparent. This commitment is reflected in customer testimonials that praise prompt responses and high-quality work.

An important part of Roof US's service is their expertise in handling insurance claims. Being a preferred contractor for almost all major insurance carriers in the area, Roof US helps customers navigate the complexities of filing claims. This support reduces stress for homeowners, ensuring they get the compensation needed for repairs or replacements.

For those interested in exploring their residential roofing services, details are available on their website, highlighting the quality materials and variety of options they provide to homeowners. Businesses can also learn more about their commercial roofing solutions designed to meet the unique requirements of different industries.

Customer Nicholas Zahn shared his experience: "The whole team at Roof US made the process of getting our roof redone incredibly easy! After noticing water damage in the roof of our garage after a storm, we searched for reputable businesses. Roof US had all 5-star ratings, and they delivered. Sam was out at our house within 24 hours to inspect the roof. Instead of simply giving us a quote, Sam recommended we contact our insurance company to have an adjuster inspect it as well. This was probably the most crucial and helpful aspect of the entire job. After coordinating with my insurance company/adjuster, we selected materials. Within about a week, Logan had his guys on our roof stripping old shingles and replacing the entire roof and gutters. 48 hours later, we had a new roof that now doesn't (and probably can't with the way they fixed it) leak!"

Roof US's dedication to high-quality workmanship and customer service is clear. They offer free quotes and have a no-mess guarantee, ensuring that they leave the worksite as clean as they found it. They also provide a workmanship warranty of up to 25 years and a 50-year manufacturer warranty, setting a high standard in the industry. Prospective customers can find detailed information about their roof replacement and installation services, emphasizing their commitment to quality and client satisfaction.

Certified by CertainTeed and preferred by Owens Corning, Roof US is credible and trustworthy. The company's BBB certification further reflects its commitment to high ethical standards and customer trust.

Potential clients can easily reach Roof US through their website's contact form. This form makes it easy to request quotes and discuss project details. Moreover, Roof US is available 24/7 to handle urgent roofing needs.

The combination of Roof US's wide range of services, deep local roots, and strong focus on customer satisfaction makes them a top choice among roofers in Columbia MO, and the nearby areas. By offering

quality, reliability, and great customer service, Roof US continues to be a leader in the roofing industry, providing durable and dependable roofing solutions.

For anyone in need of roofing services, Roof US encourages residents to contact them through their website for more information and to schedule a free estimate.
