

Revise, Inc. Has Joined Forces With the Cape Verdean Association Of Brockton (CVAB) and the City of Brockton

August 09, 2024

BEDFORD, MA - August 09, 2024 - PRESSADVANTAGE -

Revise, Inc., a company providing energy efficiency solutions to homeowners, is excited to announce its continued participation as a preferred Home Performance Contractor in Mass Save®'s partnership with the Cape Verdean Association of Brockton (CVAB) and the City of Brockton. This collaboration is part of the Mass Save® Community First Partnership, an initiative to make Brockton a more energy-efficient community.

Founded in 2016, Revise, Inc., is dedicated to helping homeowners embrace energy efficiency. With locations in Bedford and Haverhill, Massachusetts, Revise, Inc. is a proud partner of Mass Save®. The company's experienced team manages all necessary work, starting with a Mass Save® no-cost Home Energy Assessment

The Mass Save® no-cost Home Energy Assessment process starts with homeowners scheduling an appointment, during which a home energy manager meets with them. This comprehensive assessment includes a health and safety evaluation, insulation evaluation, and the installation of Instant Savings Measures. It also reviews various energy-saving opportunities, allowing homeowners to schedule any necessary upgrades.

In partnership with CVAB and the City of Brockton, Revise, Inc., in partnership with Mass Save®, will provide no-cost Home Energy Assessments for single-family and multi-unit homes in Brockton as a Mass Save® preferred Home Performance Contractor. This initiative aims to complete 350 home weatherizations and 50 equipment upgrades in 2024, contributing to the city's energy efficiency goals. The collaboration focuses on making homes and rental properties in Brockton more sustainable and energy-efficient.

A key aspect of the assessment process is the health and safety evaluation. This involves testing heating systems, hot water systems, and combustion appliances to identify potential health and safety concerns. Additionally, the insulation evaluation examines the basement, exterior walls, and attic for insulation

opportunities, ensuring proper ventilation and eliminating drafts. Windows, exterior doors, and potential solar opportunities are also evaluated.

Revise, Inc. can install Instant Savings Measures during the assessment, including programmable thermostats, water-saving devices, and energy-saving power strips. These measures help homeowners save on their utility bills immediately. The assessment also includes reviewing energy-saving opportunities and preparing customized documents explaining the available benefits and incentives. This helps make homes more comfortable and energy-efficient, while also allowing homeowners to take advantage of Mass Save®'s various generous rebates and financial incentives for completing recommended energy-efficiency home improvements.

This collaboration between CVAB and the City of Brockton is integral to the Mass Save® Community First Partnership. This initiative aims to increase participation in energy efficiency programs. Thanks to Mass Save®, it offers no-cost Home Energy Assessments and focuses on making homes and rental properties more sustainable.

Revise, Inc.'s participation with CVAB and the City of Brockton involves providing no-cost Home Energy Assessments, thanks to Mass Save®, for various housing types and targeting specific weatherization and equipment upgrades. Discounts on insulation services are available based on eligibility, encouraging community participation in sustainable living.

Homeowners in Brockton are encouraged to take action by scheduling a no-cost Mass Save® Home Energy Assessment with Revise, Inc. This will provide access to instant energy savings measures and participation in the Brockton energy efficiency initiative. For more details and to determine eligibility, contact Revise, Inc. and contribute to making Brockton homes and rental properties more comfortable and affordable.
