

PSI Conversion Unveils High-Performance LS/LT Swap Standalone Wiring Harnesses for Engine Enthusiasts

September 03, 2024

September 03, 2024 - PRESSADVANTAGE -

Brick, NJ ? PSI Conversion, a leading manufacturer of aftermarket engine harnesses and conversion parts, is thrilled to announce the launch of its latest line of LS/LT Swap Standalone Wiring Harnesses. These cutting-edge harnesses are specifically designed to accommodate a wide range of engine generations, including GEN 2, 3, 4, and 5, delivering unparalleled performance, reliability, and ease of installation for automotive enthusiasts and professionals alike.

PSI Conversion has built a reputation for excellence in the automotive industry, particularly among those undertaking LS swap projects. This new line of standalone wiring harnesses reinforces the company's position as a trusted leader in the market. Engineered to seamlessly integrate with LS/Vortec (1997-2007) (24X) Gen 3, LT1/LT4/L86/L83 (2014+) Gen 5 engines, and others, these harnesses offer a versatile and robust solution for a broad array of applications.

Each harness is meticulously crafted in the USA, reflecting PSI Conversion's commitment to quality and domestic manufacturing. The use of high-grade materials, such as GM Delphi connectors and TXL high-temperature wire, ensures that these harnesses are built to last. Designed to withstand the rigors of

high-performance use, they offer durability and reliability that automotive professionals and enthusiasts can count on. This high standard of craftsmanship means that the harnesses fit perfectly without requiring customers to undertake complicated modifications, thus simplifying the conversion process and enhancing overall vehicle performance.

“We are incredibly proud to introduce our new LS/LT Swap Standalone Wiring Harnesses,” said a spokesperson for PSI Conversion. “These products are a testament to our ongoing dedication to innovation and quality. Whether our customers are working on a classic car restoration, a custom hot rod, or a modern high-performance vehicle, our harnesses provide the reliability and precision they need to succeed.”

Beyond just the product itself, PSI Conversion is dedicated to supporting its customers through every step of their projects. The company’s technical support team, which brings decades of General Motors experience to the table, is available to assist with even the most complex conversion challenges. This deep well of expertise ensures that customers receive the guidance and advice they need to navigate their projects confidently. Additionally, PSI Conversion’s commitment to customer satisfaction is further evidenced by their fast shipping guarantee, with most orders dispatched within 1-3 business days, ensuring that customers can keep their projects on track.

PSI Conversion’s new harnesses are just one part of a broader commitment to supporting a wide variety of vehicle models, from iconic muscle cars to cutting-edge performance machines. In addition to wiring harnesses, PSI offers a comprehensive range of products, including engine controller kits, sensors, fuel systems, and transmission parts, making it an indispensable resource for all aspects of vehicle modification. The company’s ability to customize solutions for specific engine and vehicle combinations sets it apart in the aftermarket industry, making it an indispensable resource for automotive professionals and enthusiasts alike.
