London, UK, JAN 9, 2016 ? For those who want a bedroom makeover for the new year, the biggest choice because apart from the bed will be the choice between free standing furniture or fully fitted furniture. In order to help London residents, 4-Wardrobe (www.4-wardrobe.co.uk) has just published a new blog post authored by Michael Frick entitled 'Bespoke Custom Fitted Wardrobes Provide Comforts In Your Bedroom.'

The article discusses space maximization and about how fitted wardrobes 'can provide solutions that cope with awkward areas that free standing furniture cannot. If rooms have chimney breasts, alcoves, beams, awkward nooks and crannies and sloping ceilings, fitted wardrobes can be built to accommodate them.'

?Although free standing units do offer segmented storage,? stated Michael, ?they cannot compete with the utility of built-in wardrobes. You can have hanging space, pull out shelves, compartmentalised drawers, wire baskets, cubby holes, tie or scarf racks and shoe racks ? in any combination within the limits of the overall design.?

The article also discusses how 'all clothing, accessories and other clutter is taken from view once inside the wardrobe and the doors closed. This makes for a cleaner, tidier impression, no matter what it looks like when you open the door. Unlike freestanding units, there is no top of the wardrobe space where you can be

tempted to store extra items which can look messy, spoil the aesthetic appeal of the room and gather dust.'
