

Nationally Renowned Vision Correction Surgeon Brings Nearly 2 Decades of Experience to Aurora LASIK Patients

September 13, 2024

September 13, 2024 - PRESSADVANTAGE -

Dr. Patrick Munson, M.D., contributes extensive military and medical experience and a commitment to exceptional patient care to the Aurora LASIK team. His presence will enhance vision correction services for the community.

Aurora LASIK (Olympia, Washington) has announced that Dr. Patrick D. Munson, M.D., a nationally recognized authority in LASIK and refractive surgery, has joined their experienced team of eye care professionals in Olympia, Washington. Dr. Munson brings with him an extensive background that spans both military and civilian medical service, promising to elevate the vision care provided by the Olympia LASIK center.

Dr. Munson's career is marked by his specialization in LASIK, PRK, RLE and ICL procedures. In the course of more than 15 years of refractive surgery, he has performed 15,000 vision correction procedures and overseen an additional 20,000 as a medical director.

His experience is complemented by 29 years of military service, during which he earned the prestigious Legion of Merit and led Army Warfighter Eye Centers (refractive surgery) to improve the vision of tens of thousands of soldiers, pilots and Special Forces personnel. As the Army's sole Director of Ophthalmology Training, he trained more than 60 eye surgeons with a 100 percent board certification rate.

As a certified trainer on various laser platforms and one of only three national surgical trainers for the EVO ICL, Dr. Munson is highly esteemed in his field. He is also the second-highest ICL implanter in the Northwest US and Canada.

In his role at Aurora LASIK, Dr. Munson is set to continue his commitment to leading-edge vision correction technology and exceptional patient care. His expertise in advanced refractive surgeries and his background

in training other surgeons on laser technologies make him a valuable addition to the practice.

"I'm excited to be part of a team with such a strong commitment to providing excellent eye care," Dr. Munson said. "It's a great opportunity to help more people improve their vision and continue to offer top-notch care. I'm looking forward to making a difference in the Olympia community and working alongside such a talented group."

Dr. Munson's dedication to service extends beyond his professional career. He has actively participated in humanitarian missions around the world and contributed to local charities aimed at improving vision care for underserved populations. His involvement in developing an eye health van with Washington State University further underscores his commitment to expanding access to vision care.

Patients can schedule a consultation with Dr. Munson and the Aurora LASIK team by booking online at AuroraLASIK.com, or by calling the office at (360) 459-5274. At this appointment, patients will undergo a series of scans to determine which of Aurora LASIK's 4 refractive procedures will be ideal for their unique eyes. They will then meet with Dr. Munson or another member of the Aurora LASIK doctor team, who will review the data and discuss his or her recommendations. One of our Patient Counselors assists patients in figuring out a payment plan to fit their budget and an appointment plan to fit their schedule. For more information about Dr. Patrick Munson and the services offered at Aurora LASIK, please visit AuroraLASIK.com.
