

Dr. Dougherty Performs LASIK on Actor Will Yun Lee of "The Good Doctor"

October 10, 2024

WESTLAKE VILLAGE, CA - October 10, 2024 - PRESSADVANTAGE -

Westlake Village, CA ? Dr. Paul Dougherty, a world-renowned ophthalmologist specializing in LASIK and other advanced vision correction procedures, recently performed LASIK surgery on actor Will Yun Lee. Best known for his portrayal of Dr. Alex Park on The Good Doctor, Lee visited DLV Vision at 4353 Park Terrace Dr, Suite 150, Westlake Village, CA 91361. He wanted a permanent solution for his long- standing vision challenges. Dr. Dougherty carried out the successful procedure on September 4th.

?Will had been struggling with myopia?its symptoms cause issues that can impact a person?s quality of life? said Dr. Dougherty. ?From the moment he came in for his initial consultation, we took our time going over his visual health, what LASIK could do for him, and the specifics of the procedure. I made sure to walk him through each step so there were no surprises. The surgery itself took less than 5 minutes per eye, and the results were almost immediate."

Dr. Dougherty?s detailed approach involved using state-of-the-art LASIK technology to reshape Lee?s cornea, correcting his near sightedness and astigmatism. During the LASIK process, Dr. Dougherty created a small flap in the cornea and carefully lifted it to allow the laser to reshape the underlying corneal tissue. This procedure lets light properly focus on the retina, eliminating vision issues like blurriness and distortion.

Once the surgeon repositions the flap and completes the surgery, the healing process begins immediately. Most patients, including Lee, report a noticeable improvement in vision within 4-6 hours of the procedure. DLV Vision uses a highly advanced laser system that ensures precision and safety during surgery, minimizing risks and recovery time. After the procedure, Lee was amazed by the swift results.

?Seeing the world clearly without glasses for the first time in years was mind-blowing,? said Dr. Dougherty, summarizing Lee?s reaction. ?We see many patients who are surprised at how quickly their vision improves post-surgery. The next morning, Will was seeing 20/20, which is a testament to the effectiveness of modern

LASIK technology.?

DLV Vision has built a strong reputation for providing top-tier care in vision correction. Dr. Dougherty's focus on patient comfort and understanding throughout the process makes him a sought-after LASIK surgeon.

Will Yun Lee is a well-established actor with a diverse career spanning television and film. He gained widespread recognition for his roles in shows like *The Good Doctor* and *Hawaii Five-0*, and blockbuster movies such as *The Wolverine* and *Die Another Day*. Known for his dynamic range and action-packed performances, Lee has earned a dedicated fan base over the years. With minimal downtime, Lee immediately returned to his regular activities.

Patients interested in learning more about LASIK surgery or scheduling a consultation with Dr. Dougherty can visit DLV Vision's website at www.doughertylaservision.com.

About Dougherty Laser Vision

DLV Vision has been a leader in vision correction surgery for over two decades. Founded by Dr. Paul Dougherty, one of the nation's foremost ophthalmologists, the practice specializes in a range of advanced treatments, including LASIK, cataract surgery, ICL, and refractive lens exchange.

With multiple locations throughout Southern California, including Westlake Village and Camarillo, DLV Vision has helped more than 50,000 patients recapture their sight. Known for its compassionate care and cutting-edge treatments, the practice uses the most advanced laser systems to ensure each patient receives tailored care that best suits their needs.

Dr. Dougherty has earned international recognition for his contributions to vision correction and frequently lectures and instructs other surgeons. His passion for improving patients' lives through better vision has led him to perform thousands of successful surgeries. This has earned DLV Vision a reputation as one of the top ophthalmology centers in the country.
