

Texas Land For Sale Announced For The Ranches At Spring Creek

January 26, 2016

January 26, 2016 - PRESSADVANTAGE -

On Saturday, January 30, the public is invited to the Grand Opening Land Sale at The Ranches at Spring Creek, Texas. Said to be the best kept secret at the top of Hill Country, the event will give people the opportunity to own a beautiful, big and bold five acre ranch and New Cabin Shell. Those who are interested are encouraged to contact The Ranches for further information and on how to attend the event.

Vince Cutaia from The Ranches at Spring Creek says: "You're sure to fall in love with The Ranches at Spring Creek's peaceful country setting and the surrounding area, offering an abundance of recreation, entertainment, fine dining, shopping, and much more with a prime location just a short drive from Dallas Fort Worth via the new Chisholm Trail Parkway."

The Ranches at Spring Creek offers huge live oak trees, lush coastal meadows, a community park, stocked fishing pond with island, rock bottom creeks, and spectacular, panoramic Hill Country views that go on for miles. At the event, people will also be able to access excellent bank and Texas Vet financing. This ensures it is both easy and affordable to live, vacation or retire at the area's top rated ranch.

As can be seen on www.springcreektx.com, the properties include three to six acre homesites, each with a panoramic view over Hill Country. The properties are nestled among oak trees and coastal meadows. A community park is on site, as well as a stocked fishing pond with island and rock bottom creeks. The properties are near the Bosque and Brazos Rivers, two lakes, Meridian and Whitney. They are also only a short drive away from Waco, Fort Worth and Dallas.

"The opportunity to find Texas Hill Country land for sale is a really good one," adds Vince Cutaia. "The properties are absolutely beautiful and the area itself is beyond amazing. While we expect a lot of retirees will express an interest, we really hope families will take note as well. This truly is a fantastic area to live and work in, with lots of amenities and activities."
