

Algo Communications Announces Partnership With Avaya

January 26, 2016

January 26, 2016 - PRESSADVANTAGE -

The Algo Communications Products Ltd. team is proud to announce an exclusive partnership with Avaya. Avaya is a leading global communication solutions provider, and the new partnership offers more flexibility for Algo clients.

Avaya is a global leader in communications solutions, offering unified communications, contact centers, and related services via channel partners. Companies of all sizes utilize Avaya's services and enjoy heightened efficiency, collaboration, customer care, and competitiveness.

Through the new partnership with Avaya, Algo clients will have the ability to support as many as 3,000 users across 150 locations. Collaboration will be made possible with on-the-go, plug and play functionality.

More information about the partnership can be found at <http://www.algo.ca/partners/avaya-phone-systems/>.

About Algo Communications Products Ltd.

Algo Communications Products Ltd. is a British Columbia owned and operated telecommunications company delivering world class needs analysis, remote diagnostics, product life cycle management, installation, and more.
