

Brazzen Consumer Discounts Announces New Website Launch

January 28, 2016

January 28, 2016 - PRESSADVANTAGE -

Brazzen Consumer Discounts is pleased to announce the launch of its new consumer coupon/discount site for popular online brands. The new website will feature multiple online coupon offerings, as well as to share coupons from various retailers online. The website allows consumers to post comments if the coupon works as it is supposed to. For each coupon, there will be a ?Social? button so that users can share coupons using social media, including Facebook and Twitter.

Features on the site allow users to search for specific retailers or time frames. As coupons are added to the site, the most shared and recent coupons will have the highest priority. Older and less shared coupons are placed at a lower priority level on the retailer's page. This means that users don't need to wade through a lot of unwanted or unpopular items in order to choose those which will be of more help.

Consumers will be able to sign-in and register in order to receive alerts about new coupons from specific online retailers. This would mean notifications about specific products, price ranges or other alerts. Because of the social media connection, finding the best prices for desired products is fast and uncomplicated. Retailers are numbered in the thousands and more coupons are being added daily.

Coupon codes are identified for the special discounts. There are categories for the coupons. For example, coupons which offer free shipping can be sorted and viewed, as well as those which are one day sales. For local merchants, coupons can be printed out and taken to the merchant's location.

Product deals are also available in a wide range of categories, including clothing, accessories, gift cards, nursery items and others. Food and beverage deals make dining out at fast food restaurants and local dining locations. Gift items for every age and interest can be found on the website.
