

Deringer Ney Inc Completes Additional Clean Room Manufacturing Space

January 29, 2016

January 29, 2016 - PRESSADVANTAGE -

Deringer Ney Inc announces the recent completion of a 3,072 sq. ft., Class 7 Clean Room in its Nogales Mexico manufacturing facility. This space will be divided to support two market specific manufacturing technologies. The first area will enable Deringer Ney to expand upon its existing medical device contract manufacturing assembly operations. \The second area will support the continued growth of Deringer Ney?s Semiconductor Testing component manufacturing operations.

Deringer Ney had taken occupancy of an adjacent manufacturing location to their existing facility in Nogales Mexico. This expansion is providing the required additional space to install the Clean Rooms to handle projected growth in both marketplaces over the next year.
