

Wagging Tails Pet Resort and Spaw in Newington, CT Unveils Exciting New Services for Furry Friends

July 28, 2025

Newington, CT - July 28, 2025 - PRESSADVANTAGE -

Wagging Tails Pet Resort and Spaw in Newington, Connecticut, is making a big splash with its new and improved pet care services. The facility has always been focused on providing personalized care for pets, and these new features are set to further enhance the experience for their furry clients and meet the evolving needs of pet owners.

One of the main highlights of the update is the expansion of services to cater to a wide range of needs. New offerings include a Puppy Nursery School, which is great for young dogs just starting to learn about the world. They also now offer Cage-Free Boarding, allowing pets to enjoy more freedom and comfort during their stay. Plus, they've introduced an Indoor Dog Park, so dogs can play and socialize no matter the weather. The facility still offers its popular Dog Daycare and Pet Boarding services, making sure they're ready for anything, whether it's just a day or a long vacation. For those dogs who enjoy splashing around, both indoor and outdoor swimming pools are now available, so they can swim year-round.

"We are excited to bring these new services to Wagging Tails Pet Resort and Spaw Newington CT," said Krista Lofquist, a spokesperson for the facility. "Our goal is always to provide a safe, engaging environment for pets, and these enhancements will only add to the wealth of activities and options available to our furry guests."

Another convenient addition is the new "Transpawtation" service. This service makes it easier to transport pets safely, helping pet owners who often face logistical challenges. The resort also has new fun events lined up, such as Birthday Pawties, and various activities to keep pets mentally and physically active.

The resort is also expanding its Dog Training classes to accommodate a greater variety of skill levels. They're ensuring that every participant gets a practical and effective learning experience. Among the new features is Dog Dock Diving, which offers a fun challenge for dogs as they jump off a dock into water. Pet grooming services have also grown with a DIY Dog Wash. Pet owners can now wash their dogs within a professional setting, which takes the hassle out of doing it at home.

Regular grooming is significant for the health and cleanliness of pets, and Wagging Tails makes that easy with their professional setup. It's important for dogs to keep clean and well-groomed, and this facility provides the environment and the skilled team to make that happen.

At Wagging Tails Pet Resort and Spaw Newington CT, creating a fun and interactive atmosphere is a top priority. The indoor dog park is a big part of this, giving dogs a large space to run around and socialize safely while being watched over.

Krista Lofquist added, "These improvements are part of our continuous effort to set the standard for dog care services in our community. We take great pride in being a trusted partner for pet owners in Connecticut since 1995."

Pet owners can follow these updates and more from Wagging Tails Pet Resort and Spaw Newington CT on digital platforms. Their presence on social media, including Wagging Tails Pet Resort and Spaw Newington CT Instagram and Wagging Tails Pet Resort and Spaw Newington CT Facebook, serve as resources for pet owners who want to stay informed about the facility's services and upcoming events.

The dedicated team at Wagging Tails Pet Resort and Spaw is passionate about designing activities that suit each pet's personality and dietary needs. The facility has built a strong reputation over the years as a caring and professional provider of pet care. With their latest offerings, they're ensuring that pets experience a well-rounded mix of activity, comfort, and health.
