

Concrete Flooring Provider Now Offers Acid Stain Floors

February 16, 2016

February 16, 2016 - PRESSADVANTAGE -

Plano Concrete Flooring, a business in the North Texas/Plano area, is proud to announce the release of a brand new flooring service. Customers can now request acid stain floors as part of the already extensive arsenal of flooring that the company can provide. More details about the various flooring solutions that the company offers can be found at <http://www.planoconcreteflooring.com>.

A representative from Plano Concrete Flooring says: "We are a full-service decorative concrete company that offers a wide range of services, both interior and exterior. With the upswing in home remodeling in the past few years and the advent of the "outdoor room" concept we have seen the lines blur between finishes that were traditionally interior and vice versa. We can certainly help you simplify and navigate the myriad of available options and decisions necessary to the savvy consumer."

Acid staining is a very popular solution because it creates an almost luxurious richness to the floor that cannot be achieved in any other way. It is different from paint, which leaves a solid, opaque effect, because the concrete is actually permeated with the acid. This leaves translucent, luminous tones in its place, which are completely unique. Different techniques deliver different results and Plano Concrete Flooring is able to

make use of many different techniques.

The company has also launched its Facebook page at <https://www.facebook.com/PlanoConcreteFlooring>. They use this as an opportunity to communicate directly with their customers, to share industry news, and to showcase images of their latest flooring results. Customers have also used it as an opportunity to leave reviews and testimonials. "I cannot express in words the beauty the stained concrete has brought to our home," says the Nydegger family. "We could not be more pleased with the outcome. We had our first house warming this last weekend and everyone envied the floors... look out Brad, gave your number out. Thank you, Brad... we could not have asked for a more professional team of guys you have nor could we have imagined how beautiful our floors were going to be, we couldn't be any happier."

The company encourages everyone to visit their website at <http://www.planoconcreteflooring.com/services> for further information about the services they offer. Then call 214-505-7927 and they would be happy to answer any questions you may have.
