

Gilbert AZ Chiropractor Dr. Anthony Pivonka Becomes Bestselling Author

February 11, 2016

February 11, 2016 - PRESSADVANTAGE -

Reporter Dennis Radigan of LetsTalkBusinessRadio.Com revealed that Dr. Anthony Pivonka has reached the status of bestselling author on the subject of Chiropractic Biophysics.

Dr. Anthony Pivonka was designated a bestselling author for his contribution to the 3rd edition of Local Business Mavericks about treating chiropractic patients using the most scientifically validated chiropractic method.

Dr. Anthony Pivonka from Pivonka Family Chiropractic became a bestselling author on Amazon for his contribution to the 3rd edition of Local Business Mavericks released on Amazon in January, 2016. The book, comprised of 1 to 1 interviews with some of the leading industry professionals in their field, launched to #1 in two separate categories shortly after its release to the public.

Dr. Pivonka and his fellow co-authors discuss strategies for helping their clients achieve success in a variety of industries. Dr. Pivonka discusses Chiropractic Biophysics and how he and his co-worker and spouse, Dr. Patricia Pivonka, use corrective chiropractic treatments to return their patients spine's back to a normal

curve and function.

"In corrective biophysics, we've identified what a normal spine should look like. Any deviation from that norm commonly leads to problems ranging from headaches to back pain; even things like allergies can sometimes be traced back to spinal misalignment," said Dr. Pivonka. "Chiropractic Biophysics is one of the most scientifically validated techniques in chiropractic," the doctor added.

Based on the Chiropractor best selling status, Radigan was not surprised by the glowing patient reviews and noted both doctors work nationally.

Quoting the review of Meg G of Gilbert, AZ, "Dr. Andy and Dr. Patty are excellent chiropractors. I started going for scoliosis treatment and have had a dramatic improvement within just a few months! I've also felt physically better since going here. My allergies have gone away and I've been sleeping better, plus of course having a straighter spine. The entire staff is very friendly and will make you feel right at home. I definitely recommend going to the Pivonka's for all your chiropractic needs. You will not be disappointed!"

Radigan also discovered a video review at <https://www.youtube.com/watch?v=L0rk3UI2nik>

Both Dr. Anthony Pivonka and Dr. Patricia Pivonka serve patients from all across North America in their Gilbert, Arizona treatment facility. "We take a whole body approach in our office with treatments ranging from the common adjustments, to diet counseling and even strength training. We're treating more than just subluxations, and helping our patients to live healthier and more enjoyable lives," Dr. Anthony Pivonka said.
