

AC Insurance Services Now Offers Boat Insurance

February 24, 2016

February 24, 2016 - PRESSADVANTAGE -

AC Insurance Services, an insurance services provider based in West Palm Beach, FL, is proud to announce that they now include boat insurance to their list of services. As with all their insurance services, the new product includes a number of customization options so clients can get the insurance that is right for their particular needs. The company also prides itself on the affordability of the insurance policies they can offer.

Pete Steiner from AC Insurance Services says: "Boat insurance is not an everyday kind of insurance, because not everybody owns a boat. However, in certain areas, like West Palm Beach, boat ownership is incredibly common. It ranges from small rubber dinghies to super yachts. We offer comprehensive insurance services regardless of the type of vessel someone has."

The boat insurance packages offered include specialized coverage for those who need it. This includes such things as on-water towing, roadside assistance, total loss replacement, and more. They offer these services for various types of personal water crafts and boats, including sailboats, pontoons, fishing boats, house boats, and more.

Those who have worked with AC Insurance have been very pleased about the service they have received. "I researched all insurance company quotes for the best deal; and I found some great rates," says Scott S. "Peter Steiner beat them all from auto to property to commercial. I was so impressed with not only the rates but the customer service and the client contact."

For the company, the goal is to make sure their clients are able to find the coverage they need at a price they can afford. South Florida is home to many different insurance companies that offer coverage for boats, which can make it quite difficult for people to find the right one for them. AC Insurance Services encourages everyone to contact them at <http://myacis.com/contact/> in order to receive all the information they need to make the right insurance decision.

Besides boat insurance, the company also offers a full range of other insurance policies. Many people who have taken out one policy through them have returned for various other forms of coverage as well. The company is happy to speak to anyone about this.
