

Local Rehab Announces Its Scottsdale Detox Center

August 12, 2025

August 12, 2025 - PRESSADVANTAGE -

July 23, 2025: Scottsdale, AZ - Pinnacle Peak Recovery is a local rehab and mental health facility that is highlighting its program and accommodations. The care team is renowned for its clinical excellence, compassionate care, and family-friendly environment.

"I cannot say enough good things about Pinnacle Peak Recovery Detox Center. We came to them in crisis, and they went above and beyond to provide care for my son and peace of mind to me. My son's case manager, Sidney, spent hours on the phone with my son's insurance for days, making sure he was approved for treatment. He consistently communicated with me so I knew what was going on, and assured me that he would figure it out, which he did. The level of care they provided my son was phenomenal. I will be forever grateful to the people who work there - it is clear that it is more than just a job to them. They are truly saving and restoring lives," one reviewer states.

Pinnacle Peak Recovery offers a full-spectrum approach to care. At the initial assessment, clients will be evaluated and a care plan developed based on their individual needs. For many, this will begin with a medically supervised detox. The process is designed to ensure comfort and ease the transition from substance use to beginning recovery.

Substance use disorder treatment is not one-size-fits-all. Pinnacle Peak's team of clinicians understands that every treatment path needs to be tailored to each individual's needs and goals. After detox, some will enter into the inpatient treatment program. Others may transition into a form of intensive outpatient program. The care teams at Pinnacle Peak will use their discretion and the client's history when deriving the treatment plan moving forward.

"This place quite literally saved my life. Beautiful facility and fantastic counselors and therapists and doctors. They made detox as comfortable as possible, and I chose to do residential and actually enjoyed myself. It was kind of like a vacation.

"In any business there's bad, good, and great employees. There weren't really any bad employees at Pinnacle Peak, just one that still has a lot to learn about how to effectively carry out his role there - but he's new and I'm certain the leadership team and his colleagues will get him there. There were a lot of good, and a few that were great. I'd like to send a special thank you to Grace for her empathy and caring. I'm so fortunate to have been under her care.

"Drew, Bailey, Sidney, Freddy, and Pablo are amazing human beings who care about what they do. It's clear they're not just there for a paycheck. This is their life's passion - and it was an absolute pleasure meeting them," another reviewer states.

All treatments provided at Pinnacle Peak are evidence-based, meaning the approaches have proven applications and are the best available current practices. Substance use disorders and mental health conditions often go hand-in-hand, and the compassionate and knowledgeable team will diagnose and treat both simultaneously.

The highlight of Pinnacle Peak's treatment is its one-on-one approach. This goes beyond typical therapies and continues in nutritional programming, supportive housing, and assistance in developing life skills. There is also specific programming for veterans, as well as a vibrant alumni network.
