

Epic Design Labs Now An All Inclusive Marketing Agency After Adding Social Media Marketing Services

March 24, 2016

March 24, 2016 - PRESSADVANTAGE -

Epic Design Labs, a company based in Portland, OR, is proud to announce that they have launched a new social media marketing service to better assist their clients in getting more traffic to their websites. In so doing, they have placed themselves as an all inclusive marketing agency, offering everything necessary to promote a business online, from start to finish. All aspects of marketing are now available in one single place, meaning clients no longer have to rely on several different agencies.

Kalon Wiggins from Epic Design Labs says: "We specialize in effective web design and e-commerce. We help you with all aspects of your online marketing, including web design, search engine optimization, branding, video and now also social media design. We want to set ourselves apart as a one-stop shop for all digital marketing needs, and we're happy to see how much support we are already getting from our clients."

The company has specialized knowledge and skills in Big Commerce and in WordPress. In addition, they can take on any other element of online marketing as well. In order to be able to offer social media marketing, they have trained themselves on every element of this type of marketing so as to be able to offer the best possible services they can.

"We have everything ready to make sure our clients can have a rocking website," adds Kalon. "To provide them with more information, we have made a range of samples, examples and other details from our portfolio available on our website. We encourage everyone to take a look at those examples to see how much we can do and what they can expect from us."

Social media marketing is a key element of online marketing today. People expect to be able to reach their favorite companies through various social media channels. It is also integral in terms of reputation building and management. These are just some of the many things that Epic Design Labs can help their clients with, going above and beyond building a site and making sure it is optimized.

More details are available through their website at <http://epicdesignlabs.com/>.
