

Heating And Air Conditioning Dealer In Phoenix Launches 2016 Trane Special

March 25, 2016

March 25, 2016 - PRESSADVANTAGE -

Scottsdale Air Heating & Cooling, a business in Scottsdale, AZ, is proud to announce the new 2016 summer rebate special. What this means is that when customers purchase a qualifying unit, they can choose either to pay for it interest free until January 2021, or they can receive a trade in allowance of up to \$1,000. When you combine this rebate program with Scottsdale Air being one of the top Trane dealers in Phoenix, this new rebate is already attracting a lot of attention.

Mike Cross, owner at Scottsdale Air Heating & Cooling says: "We're so proud of this year's spring offer. We know this rebate will help homeowners gear up for the hot summer. There are a number of eligible packages for systems in place, so any type of property can be served. The schedule fills up very fast during this time, so please don't wait until mid-summer because it will be tough to get on any HVAC companies schedule.?"

Scottsdale Air Heating & Cooling prides itself in being the obvious choice. In doing so, they help homeowners feel more comfortable during the sales process. They will perform a load calculation to verify the correct size of the unit, a duct work inspection, and will leave you with a trusted proposal. There will also be a

full explanation of the Trane rebate and financing offers during your sales appointment.

Those who have worked with the company in the past have been very pleased with the service they have received. "Just the best," says Barry C. in a Yelp Review of the company. "Had a new ac installed to replace a 25 year old unit they did such a great job I did not even know they were here the unit works great my electric bill is lower from the first call to the guys that installed it and worked in a hot hot crawlspace and not a spec of dust thanks again for the great job."

The company encourages everybody to visit their website on www.scottsdaleair.com for further information on the Trane 2016 special. There will also be information regarding the APS/SRP rebate, duct sealing rebate, and tax credit rebate. By combining all of these rebates, homeowners can save up to \$2,600 off a new heating and air conditioning system. Contact details are provided.
