

Exclusivelyhybrid.com Announces New Financing Option for Hybrid Battery Repair

April 08, 2016

April 08, 2016 - PRESSADVANTAGE -

When it comes to Toyota, Lexus or Honda hybrid vehicles, Exclusivelyhybrid.com is known as the leading expert for South Florida area. Whether customers need help with the hybrid battery or other mechanical issues Exclusivelyhybrid.com comes to the rescue. Owner, Alex Valler, has created a process that provides customers with high quality service, yet affordable prices. As the result of his efforts, Exclusivelyhybrid.com has seen considerable growth in demand for their services.

In an effort to help as many hybrid car owners as possible, Alex has pioneered a new financing option that is now available to approved clients. This new option is designed to help those hybrid owners that need to repair their vehicle now, but would like to spread the payments over time. According to Mr. Valler this new financing option is already proving to be a huge help to many customers.

?My goal is to help as many hybrid car owners who need their vehicles or hybrid batteries repaired as I can. After much research, I partnered up with a financial institution that will allow my customers to get the repairs done today, and make the first payment in 30 days. The finance plan allows people to payoff the full balance within 6 months at 0% APR. If there is still balance after 6 months, the customers will have to pay the agreed

upon interest rate. Many of my customers are choosing this option, because they can spread out the payments over a few months.?

With more car buyers choosing hybrid vehicles every day, it seems there will be more and more need for hybrid battery repair services and Exclusivelyhybrid.com is positioned perfectly to help this growing community through their superior quality and affordable rates.

Deferred Interest for 6 months. Exclusivelyhybrid.com now offers installment payment plan that offers six(6) months of 0% interest rate. Of course if the balance is not paid in full by the end of the sixth month there will be a retroactive finance charge.

This new financing option, paired up with the high quality and affordable hybrid vehicle and battery service positions Exclusivelyhybrid.com as the leader in this sector in Florida. If you are a hybrid car owner and need some help with your Hybrid Battery or other vehicle repairs, you should contact Alex Valler through the details provided below, or just visit their website at www.ExclusivelyHybrid.com.
