

Connecticut Plumber Announces New Service Area In Greenwich

May 02, 2016

May 02, 2016 - PRESSADVANTAGE -

Best Fairfield County Plumbers, based in Stamford, CT, has announced that they have added Greenwich into their service area. Aside from making available their services to that particular town, the plumbing company also wants to announce the launch of their new social media pages.

William Brownstone with Best Fairfield County Plumbers says, "It's been a busy few weeks here, with adding new service areas and our social media accounts. We've grown substantially over the past few years and these positive changes are definitely part of that growth."

The plumbing company, which can be seen at <http://www.fairfieldcountyp Plumbers.com/plumbing/greenwich/>, will be providing its entire suite of services to customers in the new service area. In addition to general plumbing services, the company also provides repiping, water main repair, and bathroom and kitchen remodels.

"We can do just about anything related to plumbing," says Brownstone, "Including remodeling your bathroom or kitchen to accommodate new amenities and features."

The company has been serving the Stamford region for many years, and urges customers in all of their service areas to connect with them on their newly launched Facebook page. Brownstone states that they will use their social media accounts to keep customers updated of specials, new service areas, and general changes in their service list. They will also be able to answer questions and generally connect on a more personal level, which the company feels is important in today's age of technology.

Brownstone states that not many larger companies still maintain a small town service, and that's what Best Fairfield Plumbers does. In addition to connecting via their Facebook page, the company states that those interested can keep up with their latest happenings on their new Twitter page.

The company states that all of their current and past services will still be available to their customers in Stamford and other service areas, and that new customers in Greenwich will be able to call immediately to begin scheduling consultations and service calls. Those interested in learning more can visit the company on either of their social media pages or on their official website where a complete list of services and service areas is available.
