

## **Zahnarzt Basel Expands 365-Day Emergency Dental Service Near Basel SBB**

*September 24, 2026*

Basel, Basel-City - September 24, 2026 -

Zahnarzt Basel, an emergency dental practice operating through [Dienotfallzahnaerzte.ch](https://dienotfallzahnaerzte.ch), has reaffirmed its commitment to round-the-clock emergency dental care available every day of the year in Basel, Switzerland. The practice provides immediate treatment for urgent dental issues including severe toothaches, broken teeth, loose crowns, and dental accidents, serving patients throughout the region without interruption for holidays or weekends.

Located in Basel City close to the Basel SBB railway station, the clinic offers convenient access for both residents and visitors requiring urgent attention. The central position allows patients experiencing dental emergencies to reach professional care quickly, an important factor when sudden pain or injury demands prompt intervention. The practice location can be viewed at [maps.app.goo.gl/PykTbudimtCmD5gn7](https://maps.app.goo.gl/PykTbudimtCmD5gn7) for those seeking directions to the facility.

The clinic operates 365 days a year, staffing a team of general dentists, orthodontists, and oral surgeons who

address a broad spectrum of dental needs. An in-house dental laboratory supports the practice, enabling the production of many dental solutions on site and reducing waiting times for patients who require restorative work following an emergency visit. This combination of continuous availability and on-premises laboratory capability distinguishes the operational approach of the practice.

Beyond emergency treatment, Zahnarzt Basel delivers a range of ongoing dental services. These include dentistry for children, dental implants, and prophylaxis focused on preventive care such as professional cleanings and early detection of oral health concerns. The practice also provides diagnosis and treatment for craniomandibular dysfunction, a condition affecting the muscles and joints connecting the jaw to the skull. Care is structured with attention to families, young patients, and individuals who feel anxious about dental appointments.

The practice maintains transparency regarding emergency treatment costs, offering patients clear information about expenses associated with urgent care before treatment proceeds. This approach reflects the clinic's stated aim of combining fast response with straightforward communication. Additional context about the clinic's services is available through a distributed announcement at [pressadvantage.com/story/82390-zahnarzt-basel-offers-24-7-emergency-dentist-services-and-comprehensive-oral-solutions](https://pressadvantage.com/story/82390-zahnarzt-basel-offers-24-7-emergency-dentist-services-and-comprehensive-oral-solutions).

Modern dental technology and current treatment methods underpin the care provided at the clinic. The practice applies these tools across both emergency and routine services, from initial diagnosis through to completion of treatment. Patients arriving with acute concerns receive assessment and, where possible, same-visit resolution supported by the on-site laboratory and multidisciplinary team.

The practice serves the wider Basel area, and its service coverage and location details can be reviewed at [batchgeo.com/map/7b1b0dc11022f90f2f033d88806ff313](https://batchgeo.com/map/7b1b0dc11022f90f2f033d88806ff313). The mapped information assists patients in understanding the reach of the clinic and planning a visit during an emergency or for scheduled care.

Zahnarzt Basel is a dental practice based in Basel, Switzerland, specializing in emergency dental services and immediate assistance for dental problems. The clinic operates every day of the year and offers emergency treatment, children's dentistry, dental implants, preventive prophylaxis, and care for craniomandibular dysfunction. Supported by an in-house dental laboratory and a team spanning general dentistry, orthodontics, and oral surgery, the practice focuses on accessible, prompt, and professional dental care for the Basel community.
